JAMES H. BUDD, Governor.

Senator Bert moved that the reading and further consideration of the Governor's biennial message be made a special order for to-morrow, immediately after the reading of the Journal.

So ordered.

REPORT OF BOARD OF STATE CAPITOL COMMISSIONERS.

SACRAMENTO, December 1, 1896.

To the Senate and Assembly of the State of California:

The thirty-first session of the Legislature of California appropriated for the maintenance of the State Capitol grounds for the forty-sixth and forty-seventh fiscal years, the following amounts:

RECEIPTS.	
For purchase of implements, hose, etc.....	\$5,000 00
For salaries of twelve employés	25,920 00
For salaries of three policemen	7,200 00
For lighting State Capitol grounds.....	2,400 00
For water, State Capitol grounds.....	2,400 00

EXPENDITURES.

From the appropriation for the "purchase of implements, hose, etc." (\$5,000 for forty-sixth and forty-seventh fiscal years), there has been paid to December 1, 1896..... \$3,229 76

Leaving a balance of..... 1,770 24

From the appropriation for salaries of employes, there has been paid to December 1, 1896 (seventeen months)..... 18,360 00

Leaving a balance of..... 7,560 00

From the appropriation for salaries of three policemen, from June 30, 1895, to December 1, 1896 (seventeen months), at \$100 per month..... 5,100 00

Leaving a balance of..... 2,100 00

From the appropriation for lighting State Capitol grounds:

5 lights at \$15 (9 months) one o'clock circuit..... \$675 00

5 lights at \$9 (1 month), all-night circuit..... 45 00

8 lights at \$9 (7 months), all-night circuit..... 504 00

Total, seventeen months..... 1,224 00

Leaving a balance of..... 1,176 00

Under contract made by former Board, the Capital Gas Company furnished five lights, on one o'clock circuit, for \$75, or \$15 per light. The Commissioners invited new bids, and the Capital Gas Company agreed to furnish lights on an "all-night circuit" at a reduction of \$6 per light, whereupon the Commissioners ordered three extra lights, making eight lights on an "all-night circuit" for \$72 per month.

From appropriation for water for State Capitol grounds, there has been paid..... \$1,800 00

Leaving a balance of..... 600 00

The Board has successfully bored a well, and has a good flow of water, and hope to be able to furnish the building and grounds with water at a rate much lower than above.

From the balance on hand (\$15,089 52) of the unexpended balance of appropriation of March 11, 1893, "For care and improvement of State Capitol grounds," \$39,500; expended as per last report, \$24,410 48; leaving a balance of \$15,089 52; the Board has expended, to December 1, 1896, the sum of..... \$11,637 37

Leaving a balance on hand December 1, 1896, of..... 3,452 15

From the appropriation for "Improving N, Fifteenth, and L streets," adjacent to the State Capitol grounds:

For superintending..... \$1,995 92

For incidentals..... 17 05

For contract..... 29,543 70

Total..... \$31,536 07

Leaving a balance of..... 1,471 33

By order of the Board, said balance of \$1,471 33 has been returned to the State Treasury.

The former Board asked the Legislature of 1895 to make an appropriation for the improvement of the State Capitol grounds east of Thirteenth Street, which for years has been a barren waste, given over to weeds, rubbish, and the pasturing of cattle; this the Legislature did not do. The present Board, with funds already on hand, has placed the entire tract under cultivation, and to-day it presents a beautiful appearance. The tract is laid out in symmetrical flower-beds—each outlined with a border of blue-grass, six feet in width—and the flowers and shrubs planted are making a fine growth and present a pleasing effect, with outlines for really fine effects in the future.

To illustrate the possibilities of our climate and soil, Mr. Dunn, State Gardener, has, by direction of the Board, set out groves of orange, lemon, olive, umbrella, Japanese persimmon, Japanese loquat, and pepper trees, each located to show to the best advantage; also, palms, flowering shrubs, many varieties of dahlias, variegated bamboo, and Australian gum. Since planting, to this date (December 1, 1896), not over twenty-five have died. Of the flowering plants there have been set out 2,000 French cannas, 2,000 caladium esculata, and quantities of other plants.

In addition to the work in the new garden, there have been draughted and staked out by the Gardener (as directed by the Commissioners), with the assistance of three men, a main walk from the tool-house at Twelfth Street to Fifteenth Street, through the grounds, 19 feet wide by 1,232 feet long, and 3,434 feet of branch walks, 8 feet wide. These have been surveyed, thrown up, crowned to center, rolled, and covered with three inches of decomposed granite from Folsom, at the cost of the labor and hauling only. The estimated cost of that work in bitumen would be not less than \$25,000. The walk, as laid, is both beautiful and wholesome, absorbing all moisture, and is kept in order

cheaply—making a most desirable path, both as to utility and beauty, at a cost of only \$2,353 11.

Labor—Three men at \$90 per month (3 months)	\$310 00
One man at \$90 per month (1 month)	90 00
Three men at \$90 per month ($\frac{1}{2}$ month)	135 00
Three men at \$90 per month (fraction of a month)	180 00
	<hr/>
Freight.....	\$1,215 00
Hauling by wagon	447 21
	<hr/>
Total.....	\$2,353 11

On the garden west of Eleventh Street all the sod—ten acres—has been spaded by hand to a depth of two feet, and planted with 800 pounds of blue-grass seed. All this had to be carefully weeded and watered throughout the summer, and now presents a beautiful lawn. This work has not been done in over twenty years.

In the hot-house, 15,000 plants were raised in 1895 and 20,000 in 1896, and planted in the front lawn and terraces. Sixty-three new flower-beds have been added to those already there. The Commissioners feel sure that the money put into the grounds has been well expended, and that the result has amply repaid the outlay.

Great credit is due Mr. Dunn for his work, and the Board feels that the result fully justifies its request that four more men be employed for the care of the grounds, in addition to the twelve now employed—one of whom shall be a skilled gardener and propagator. The lack of training in the men employed by the Board is a great drawback to the accomplishment of efficient work.

Owing to the extension of the garden through to Fifteenth Street, the Commissioners would ask for an increased appropriation to enable the entire garden to be properly cared for. The Gardener has in contemplation, and will probably have completed before your body convenes, the seeding of all the plats around the ground, where the ornamental palms are planted. The palms are doing finely, and present a very handsome appearance.

The Board recommends that an appropriation, not to exceed \$2,500, be made for painting of the Agricultural Pavilion;

Also, that a similar amount be appropriated for putting in a sewer extending from L to N Street, across the Capitol grounds, and connecting the same with the building and main sewers of the city;

Also, an appropriation, not to exceed \$1,000, to be used for the purpose of filling in the corner of the State Capitol grounds at Fifteenth and N streets, to the level of the surrounding grade.

These appropriations are urged by the Board, because, in its judgment, these improvements are necessary; and the construction of the sewer, as herein recommended, would result in an actual saving to the State.

JAMES H. BUDD,
L. H. BROWN,
LEVI RACKLIFFE,

Board of State Capitol Commissioners.

JOSEPHINE M. TODMAN,
Secretary Board of State Capitol Commissioners.

The report was ordered on file.

READING OF THE JOURNAL.

During the reading of the Journal of yesterday, the further reading was dispensed with, on motion of Senator Dickinson.

RESOLUTION.

Senator Smith offered the following resolution, and moved its adoption:

WHEREAS, The Committee on Ways and Means of the House of Representatives is now engaged in revising the tariff laws of the country, for the purpose of providing sufficient revenues to meet the needs of the government, as well as to afford protection to American industries; and

WHEREAS, The agricultural, horticultural, pastoral, mining, and manufacturing industries of California are vitally interested in receiving protection from the competition of foreign products; therefore, be it

Resolved by the Senate of the State of California, That we instruct our Senators, and request our Representatives in Congress, to use their utmost endeavors to secure for our various industries the full measure of protection which they deserve, to the end that the producers and laborers of this State may be shielded from the ruinous competition of cheap foreign labor.

WHEREAS, California is but one State in this indissoluble Union of forty-five States; and

WHEREAS, All laws of Congress should be equitable and fair to all the people; therefore, be it

Resolved, That we cheerfully request for the laborers on the farms and in the mines and workshops of other States the same measure of protection which we ask for those of California;

Resolved, That the Secretary of this Senate be instructed to transmit a copy of these resolutions to each of our Senators and Representatives in Congress.

SUBSTITUTE.

Senator Braunhart offered the following as a substitute, and moved its adoption:

SENATE JOINT RESOLUTION RELATIVE TO THE FREE COINAGE OF SILVER.

WHEREAS, We recognize the fact that the demonetization of silver, and by refusal to give it equal standing in the coinage system of the United States, the material interest of the nation is dangerously impaired; and

WHEREAS, It is recognized to be a fact that the opposition to silver coinage emanates from speculative syndicates and moneyed classes, who seek to embarrass the people of the nation for the advancement of their own selfish ends; and

WHEREAS, We entertain the firm belief that the full measure of national prosperity will never be restored until the coinage of silver is resumed in accordance with the true intent and spirit of the Constitution of the United States, and having unbounded faith in the power and ability of this nation to restore and maintain silver in its proper position alongside of gold; and

WHEREAS, We believe that the issue of United States bonds, for the purpose of maintaining a single gold standard, or any standard that does not contemplate the free and unlimited coinage of silver, is a practice fraught with the greatest danger to the stability of our institutions and the maintenance of national credit; therefore, be it

Resolved, That our Senators in Congress be instructed, and our Representatives be requested, to earnestly and urgently advocate the immediate resumption of the free and unlimited coinage of silver, in the ratio of 16 to 1; and be it further

Resolved, That our Senators be instructed, and our Representatives be requested, to actively advocate the enactment of such laws as may be necessary to prevent the issue of United States bonds for the sole purpose of maintaining a single gold standard of money; and be it further

Resolved, That the Governor be requested to immediately transmit a copy of these resolutions to each of our Senators and Representatives in Congress.

POINT OF ORDER.

Senator Withington made the following point of order: "That Senator Braunhart's resolution, not being germane to the subject-matter or resolution offered by Senator Smith, it could not be properly considered as a substitute for the same."

The President thereupon ruled that the point of order was well taken.

SUBSTITUTE.

The question recurring on the adoption of the original resolution, Senator Braunhart offered the following as a substitute, and moved its adoption:

SENATE JOINT RESOLUTION.

Resolved by the Senate of the State of California, the Assembly concurring, That we instruct our Senators, and urgently request our Representatives in Congress, to use every means within their power to secure such adjustment of the tariff laws that will not endanger our established domestic industries by any radical change in the system of taxation. On the contrary, a fair and careful revision of our tax laws, with due allowance for the difference between wages of American and foreign labor, must promote and encourage every branch of such industries and enterprises by giving them assurance of an extended market and steady and continuous operations. In the interest of American labor, which should in no event be neglected, the revision of our revenue laws should be so constructed as to promote the advantage of labor by cheapening the cost of the necessities in the home of every workingman, and at the same time securing him steady and remunerative employment.

The roll was called, and the substitute lost by the following vote:

AYES—Senators Braunhart, Chapman, Doty, Dwyer, Feeney, Hall, Henderson, Langford, La Rue, Prisk, Seawell, and Toner—12.

NOES—Senators Androus, Aram, Beard, Bert, Bulla, Denison, Dickinson, Flint, Franck, Gillette, Gleave, Holloway, Jones, Linder, Luchsinger, Mahoney, Morehouse, Pedlar, Shine, Shippee, Simpson, Smith, Stratton, Trout, Voorheis, Withington, and Wolfe—27.

The question recurring on the adoption of the original resolution, Senator Seawell offered the following as a substitute, and moved its adoption:

SENATE JOINT RESOLUTION.

WHEREAS, The policy of the incoming Republican administration, as announced through their platform and the direct statement of their candidate-elect to be a high rate of tariff duties on the necessary articles of consumption used by the people, thereby imposing additional taxation on the masses of the people, and enabling the great trusts to profit by receiving more than their just share of so-called protection; therefore, be it

Resolved by the Senate of the State of California, the Assembly concurring, That we instruct our Senators, and urgently request our Representatives in Congress from this State, that they use every means in their power to secure the incorporation, in the new tariff law, of such import duties on the products of the State of California, including wine, wool, raisins, fruits, nuts, olives and olive oil, cereals, and lumber, as will com-

pletely protect such interests in California from foreign competition, thereby securing to California producers the control of the home market, and a reasonable price for their products;

Resolved, That the Secretary of the Senate be directed to transmit to each of our Representatives in Congress, and to telegraph immediately to each of the Senators from this State, a copy of these resolutions.

POINT OF ORDER.

Whereupon Senator Withington made the following point of order: "That Senator Smith's resolution related to the proposed revision of the tariff laws by the present Congress, whereas the substitute offered by Senator Seawell was based upon the promises of the incoming administration, and not of the present administration, and would therefore be, in the event of its adoption, without force, and is not germane to the original resolution, and cannot be properly adopted as a substitute."

The President thereupon decided the point of order well taken.

The question recurring on the adoption of the original resolution, the roll was called, and the resolution adopted by the following vote:

AYES—Senators Androus, Aram, Beard, Bert, Bulla, Denison, Dickinson, Flint, Franck, Gillette, Gleaves, Holloway, Jones, Langford, Linder, Luchsinger, Mahoney, Morehouse, Pedlar, Shine, Shippee, Simpson, Smith, Stratton, Trout, Voorheis, Withington, and Wolfe—28.

NOES—Senators Braunhart, Chapman, Doty, Dwyer, Feeney, Hall, Henderson, La Rue, Prisk, Seawell, and Toner—11.

COMMUNICATION.

The President directed the Secretary to read the following, which had been addressed him as President of the Senate:

MANUFACTURERS AND PRODUCERS' ASSOCIATION OF CALIFORNIA, }
SAN FRANCISCO, January 5, 1897. }

President of the Senate, State Capitol, Sacramento, Cal.:

DEAR SIR: Inclosed you will find copy of resolutions passed by this Board at their last meeting, held December 11, 1896, duly attested and signed by the Secretary.

Yours very truly,

MANUFACTURERS AND PRODUCERS' ASSOCIATION.

By L. R. MEAD, Secretary.

Resolved, That the Manufacturers and Producers' Association of California is unalterably opposed to the employment of convicts within the State Prisons of California, other than in the manufacture of jute bags and the breaking of stones taken from quarry upon prison grounds for the use of public roads and highways;

That as an association we will use all honorable means to defeat any bill or measure which may be presented by the honorable Board of State Prison Directors to the Legislature of California which will give employment to convicts other than the two herein named;

Further, That we indorse the "Southwick Bill" now pending in Congress, which stops the transportation of goods, wares, or merchandise from one State to the other of convict make or manufacture;

Further, That the Manufacturers and Producers' Association of California, realizing the fact that this State has and is suffering to the amount of millions of dollars from the competition of convict labor from different States of the United States, asks the cooperation of all industrial and labor organizations throughout California to use their best endeavors to have measures passed in Congress and in the State Legislature which will effectually end this unjust competition;

That the Secretary of this Association be and is hereby requested to forward a copy of these resolutions, duly attested, to the Governor of California, the President of the Senate, and the Speaker of the Assembly, when the Legislature meets; also, to the President of the California State Board of Prison Directors.

I hereby certify that the foregoing is a true copy of resolutions passed by the Board of Directors of the Manufacturers and Producers' Association of California, at a meeting of the Board held December 11, 1896.

L. R. MEAD,
Secretary Manufacturers and Producers' Association of California.

ASSEMBLY JOINT RESOLUTION No. 6—(COMMITTEE SUBSTITUTE FOR ASSEMBLY JOINT RESOLUTIONS Nos. 1 AND 2).

WHEREAS, There is now pending in Congress a measure, known as the "Powers-Gear" bill, which has for its object the refunding of the debts of certain Government-aided railroads; and

WHEREAS, Any scheme for refunding the Pacific Railroads' indebtedness to the United States Government, or any extension of the time for payment of the same, must result in maintaining an excessive capitalization of these roads, thus requiring high rates of fares and freights to meet the interest payments thereon, to the great burden and disadvantage of the People of the State of California; therefore, be it

Resolved by the Assembly of the State of California, the Senate concurring, That we are unalterably opposed to any and all extensions of the time for payment of said debts, and also to the Powers-Gear bill, or any other bill of like import, and we hereby instruct our Senators, and request our Representatives in Congress, to oppose, by all honorable means, the enactment of any such measure; and be it further

Resolved, That we favor the immediate collection, on maturity, of said debts, or in the event the same cannot be collected, then we urge the enforcement of existing laws of the United States concerning this question; and be it further

Resolved, That we petition, in behalf of the State of California, for a hearing before the respective committees of Congress having jurisdiction of the subject; and the Senate and House of Representatives of the United States are hereby further petitioned to recommit the measure now under consideration, and delay final action thereon until such hearing can be had; be it further

RESOLUTION.

The following resolution was submitted by Senator Langford:

SENATE JOINT RESOLUTION No. 2.

Resolved by the Senate of the State of California, the Assembly concurring. That—

WHEREAS, The fruit-growers of California, in convention assembled, December 2, 1896, at Sacramento, California, adopted a memorial to the Congress of the United States, respecting the duties upon foreign fruits, expressive of the views of the convention and the fruit-growers of California; therefore, be it

Resolved, That the Legislature of California fully indorse the objects set forth in said memorial and approve the same, and hereby petition Congress to enact a tariff on fruits and fruit products, as follows:

1. *Olives*, green or prepared, which were not upon the dutiable list in the Act of 1890, and which, by the Act of 1894, were placed on the dutiable list with twenty per cent ad valorem duty, should be 20 cents per gallon. The California plantings of this precious tree are increasing, and should be encouraged.

2. *Olive Oil* for salad was given a specific duty of 35 cents per gallon, both by the Act of 1890 and by the Act of 1894. The consumer gets this oil in bottles, about five of which make a gallon; it sells at 75 cents to \$1 per bottle. The invoice price at which it is valued for duty is about \$1 08 per gallon, or a duty of 7 cents per bottle. This duty is too small; we therefore ask that it be not less than \$1 per gallon, and the same on all oils of which olive oil forms a part. In 1895 we exported 21,187.72 gallons of cotton-seed oil. Much of this returned to America, after further treatment, labeled "pure olive oil," greatly to the detriment of the pure oil made from the fruit grown in California. At present we must compete not only with pure olive oil, but also with cotton-seed oil and other substitutes.

3. *Raisins, Zante Currants, Sultanas*, and all other dried products of the grape should be given 2½ cents per pound—the duty of 1890. This industry has grown so rapidly that raisins have cheapened in the market far beyond expectations, and to a point affording but little profit to the grower. The present duty of 1½ cents per pound about covers cost of transportation to New York and Chicago. The foreign article comes in with very small freight charge. Our product should have at least 1 cent per pound clearly protective, and even this will not put our grower upon an equal footing with the foreign producer. The cost of transportation on imported fruits is about 30 cents per hundred pounds, while we pay \$1 50 per hundred pounds.

4. *Almonds*.—The price realized during the past two years has not been remunerative. It is one of the most delicate fruits, and more likely to suffer from frost than even the orange; it blooms early and is quite tender in the bloom, and for some time after setting the fruit. There are many things to discourage its planting, and yet it is very desirable that we should continue its production, as, since we began its culture, we have produced many very desirable new varieties, and have cheapened the price so that the consumer in recent years has indulged in this luxury to a much greater extent than formerly. Notwithstanding we have grown the almond quite extensively, the importations have increased. The rate of duty does not seem to have affected the imports. In 1892, when the duty was 5 cents, our imports were 7,629,392 pounds. In 1895, they were nearly 8,000,000 pounds. By the Act of 1883 and the Act of 1890 and the Mills bill, the rate was 5 cents. The Wilson bill cut it down to 3 cents, which is too low. There was less revenue to the Government in 1895 at 3 cents than formerly at 5 cents, and there was less protection. We ask that the duty be made 6 cents per pound on unshelled and 10 cents on shelled almonds.

5. *Walnuts*.—Walnuts are largely produced in the State. The acreage planted is greater than that of the almond, and it is a more profitable tree, where soil and climate are favorable. In the Acts of 1883 and 1890 and the Mills bill, the same rates were imposed (except that by the Act of 1890 the rate was properly increased on shelled walnuts from 3 to 6 cents per pound). The Wilson Act of 1894 cut down the rate to 2 cents. It should be restored to the old rate of 3 cents on unshelled and 6 cents on shelled. It takes much longer to bring a walnut tree to bearing than the almond, and the area adapted to its production is much less.

6. *The Prune Industry*.—The duty by the Act of 1883 was 1 cent per pound, and the same by the Mills bill. The Act of 1890 increased it to 2 cents, but the Act of 1894 reduced it to 1½ cents. The present duty does not more than cover the cost of transportation to our markets, so that we practically enter them with no advantage over the foreign producer.

The duty should be 2½ cents per pound on prunes and plums. Since California has developed this industry, the prune has become a common article of food, greatly prized by the masses, and has been so cheapened in price that all classes may use it. So long as the foreign trade had the market, the prune was a luxury.

In 1893, foreign prunes were laid down in New York city for 4 and 4½ cents per pound, duty paid of 2 cents, and we imported that year over 26,000,000 pounds. During the past two seasons the foreign crop has been short, but still the price has not advanced materially. The fact that the foreign producer can sell for 2 and 2½ cents per pound, and pay commissions and freight charges out of this, will show how sharp is to be the competition when a good crop is produced abroad. Nothing short of 2½ cents per pound will afford any protection. If the California prune-grower is forced to yield the trade to her foreign competitor, and go out of the business of growing prunes, the foreign producer will inevitably raise his price and the consumer will lose much more than by paying the small additional duty asked, if he prefers the foreign article.

7. *The Fig Industry*.—In 1883, the duty was 2 cents per pound on figs, and 2½ cents by the Act of 1890. The Mills bill put them on the free list, and the Wilson Act placed the duty at 1½ cents. Nothing could be more illogical than to put figs upon the free list, even under tariff for revenue only. Figs are not an article of necessity, and the consumption has not much increased in ten years. This fruit is really most wholesome, and should be more widely consumed, and will be when our plantings are in full bearing. We recommend a duty of 3 cents per pound.

8. *Confits, Sweetmeats, Preserved Fruits, Etc.*—Under the general heading above, all parties and all laws seem to have regarded the more costly preparations of fruit, such as glacé, candied and preserved varieties, as essential luxuries, and as such, should pay a revenue. The industry in California is developing, and will find a wide and profitable field. The duty was thirty-five per cent ad valorem, under former laws, and is thirty per cent by the Act of 1894. In the nature of these products, a specific duty seems not practicable, but a duty of forty per cent is none too large, and we recommend that rate.

9. *Citrus Fruits—Oranges, Lemons, and Limes*.—The citrus-fruit industry has perhaps contributed more to bring to the notice of the world the wonderful range of California's fruit products than all others combined. In point of acreage planted, rapidity of its development, capital invested, and relation to the Eastern fruit markets, it stands at the head of all our varieties. We have competitors, not only in the eastern, but also in the southern portion of the western hemisphere, and from the islands of the sea. The orange and lemon have passed beyond the class of luxuries and have become a necessity to the American people, and are demanded and consumed in large quantities. The competition with our lemons is very close, and very unfair, because an inferior lemon is put upon the market at low prices, and seriously affects the price of good lemons. Mexico is preparing to enter into strong competition for our orange trade, and will this season send in over eight hundred carloads. Our present orange and lemon duty is not as protective as it should be, and is not as high as it should be, to yield revenue. The rate under the Acts of 1883 and 1890 was 13 cents per cubic foot on box of 1¼ cubic feet, and 25 cents per box of 2½ feet, and 55 cents on box of 5 feet, and twenty per cent ad valorem on each additional cubic foot. Oranges run from 128 to 260 to a box of 134 cubic feet. The average number is about 160 to a box, on which the McKinley bill placed a duty of about 12 cents per hundred, and the Wilson bill 8 cents per hundred. We claim that this duty is so inadequate as offering protection that our country is flooded with grossly inferior fruit, and the business of producing good oranges discouraged. The same may be said of the duty of \$1.50 laid on one thousand oranges in bulk. It is not protective, nor is it sufficient for revenue. We see no reason for these several classifications. The duty should be laid at a uniform rate per cubic foot, regardless of the size of the package, and should not be less than 20 cents per cubic foot, and when in bulk (which are always high-grade and large oranges) should bear not less than \$2.50 per thousand. We further recommend a specific duty of 10 cents per pound on citric acid, and 50 cents per pound on essential oils of oranges and lemons.

WHEREAS, The orchards of California are proving to the country what her gold mines were in the fifties, with the advantage that they have come to stay, and are practically unlimited in possibilities; and

WHEREAS, Nature has decreed California to be the orchard of America, if not of the globe. Here are produced the fruits of every zone. The whole country has the same interest in our success, or should have, that it has in the success and prosperity of other specially favored regions of our marvelous country—as in the South in her cotton, and sugar, and rice, and tobacco; the great West in her corn and wheat; the middle States in their iron and coal; the East in her manufactures. That we can produce in California

every fruit known to the Mediterranean basin, and the hardier fruits of all other climes, should arouse the pride of all Americans and challenge their friendly aid; and

WHEREAS, The more nearly the United States are enabled to produce all articles of human consumption, the more nearly we shall approach the ideal country for human habitation. We desire to furnish to the people of the United States fruits in abundance, and at reasonable prices, such fruits especially as cannot be elsewhere grown in the United States. We ask only such legislation as will enable us to do this; therefore, be it

Resolved, That these resolutions be printed, and duly attested, and a copy be forwarded to each member of the Ways and Means Committee of the House of Representatives, and to each present Senator and Representative in Congress, and to each Senator and Representative of the forthcoming Congress of America.

During the reading of the resolution, Senator Seawell moved that the further reading be dispensed with, and that its consideration be made a special order for Monday next, immediately after the reading of the Journal.

Motion lost.

After the resolution had been read, Senator Langford moved its adoption.

Senator Morehouse moved, as an amendment, that the consideration of the resolution be made a special order for Monday next, immediately after the reading of the Journal.

PETITION.

Pending the putting of the motion, Senator Androus asked and was granted permission to present the following petition, which was read, and, on motion of Senator Voorheis, ordered printed in the Journal:

To the Honorable Members of the State Legislature, assembled at Sacramento, California:

At a mass meeting of the citrus-fruit growers of Southern California, held in the assembly room of the Chamber of Commerce, in the City of Los Angeles, December 25, 1896, it was unanimously resolved to petition your honorable bodies to memorialize Congress to amend our present tariff laws, and increase the import duty on foreign-grown citrus fruits. In all foreign countries where citrus fruits are grown, the price of labor is many times less than it is here. It costs us for freight 45 cents per cubic foot to put our fruit in the Eastern markets. The Mediterranean growers can place theirs there at not more than 15 cents per cubic foot. The difference in freight as between foreign-grown citrus fruit and our own is 30 cents per cubic foot, and, with the difference in cost of production and labor, simple justice demands that we should at least be placed on a footing of equality with the foreign growers.

We therefore beg your honorable bodies to ask Congress to place an import duty on oranges, lemons, limes, and grape-fruit, that will place us upon such an equality.

(Signed:) GEORGE FROST, President,
A. H. CARGILL, Secretary,
E. H. MORGAN,
H. K. PRATT,
J. H. SPIRES,
and 579 others.

The question being on the motion to make the consideration of the resolution a special order for Monday next. The same was put and lost.

The question recurring on the adoption of the resolution. The roll was called, and the resolution adopted by the following vote:

AYES—Senators Androus, Aram, Beard, Bert, Bulla, Denison, Dickinson, Flint, Franck, Gillette, Gleaves, Holloway, Jones, Langford, Linder, Luchsinger, Morehouse, Pedlar, Shine, Shippee, Simpson, Smith, Stratton, Trout, Voorheis, Withington, and Wolfe—27.

NOES—Senators Brauhart, Doty, Dwyer, Feeney, Hall, Henderson, La Rue, Seawell, and Toner—9.

EXPLANATION OF VOTE.

During the roll call, when Senator Seawell's name was called, he arose and explained his vote, as follows:

I desire to vote "no" on this question, and also desire to explain my vote. This resolution, which is quite voluminous, was only introduced on this day, and only a few

minutes since. It proposes, as a suggestion to Congress, certain tariff duties on classified fruits produced in the State of California. It also contains a reference to existing duties and a statement of the present schedule under existing law that I have not had time to verify, and of which I have made no particular investigation. It is an argument based upon a comparison of the duties under the "Wilson bill" and the duties suggested by a convention of men directly engaged in the production of an article proposed to be protected. It is admitted by two Senators that they are voting for the measure because they are directly and pecuniarily interested in fruit-culture. I think in a deliberative body that a reasonable opportunity to investigate a matter of such importance should not be denied any Senator. Therefore, among other reasons for voting "no," I desire to state that the controlling one in the present instance is a want of information.

Senate Joint Resolution No. 2 was ordered printed and transmitted to the Assembly.

COMMITTEE ON COMMERCE, UNITED STATES SENATE, }
WASHINGTON, D. C., January 8, 1897. }

F. J. BRANDON, Esq., *Secretary Senate, Sacramento, California*:

DEAR SIR: I have just received a copy of Senate Joint Resolution No. 1, certified to by you as Secretary of the Senate and S. J. Duckworth as Chief Clerk of the House. Also, Assembly Joint Resolution No. 6.

Yours truly,

STEPHEN M. WHITE.

UNITED STATES SENATE, WASHINGTON, D. C., January 7, 1897.

F. J. BRANDON, Esq., *Secretary*, and S. J. DUCKWORTH, Esq., *Chief Clerk, Senate Chamber, Sacramento, California*:

GENTLEMEN: I am in receipt of your telegram of January 6th, transmitting Senate Joint Resolution No. 1, relating to the protection of the fruit interests of California in the tariff bill now being formulated, and instructing the Senators of California to use every means in their power to secure the incorporation of such import duties as will secure to California producers the control of the home market and a reasonable price for their products.

This is one of the principal objects which I have always had in view since my election to the United States Senate, and until the necessary protection of California products is secured I shall not remit my efforts in this direction. The California delegation has

presented to the Committee on Ways and Means the case of the California fruit-growers, and I have personally presented the memorial of the convention of fruit-growers of California, held at Sacramento, December 2, 1896. I have also laid before the committee the needs of the growers of citrus fruits, as expressed by the California Citrus Tariff Commission, and the demands of the raisin-growers of the State. I fully realize that the prosperity of the State depends in a very great degree upon its fruit interests, and I can therefore most gladly follow the instructions which I have received from the California Legislature in the joint resolution transmitted in your telegram.

Yours truly,

GEORGE C. PERKINS.

The President pro tem. of the Senate then announced the receipt of a telegraphic communication from Hon. George C. Perkins.

The Secretary of the Senate read as follows:

WASHINGTON, D. C., January 13, 1897.

To HON. W. T. JETER, Lieutenant-Governor, and President of the Joint Legislative Assembly:

Permit me, through you, to express to the Joint Legislative Assembly my most sincere appreciation of the honor conferred upon me by my reelection as one of California's Senators in Congress. This evidence of your confidence is intensified by the fact that your choice was made only eight days after the organization of the Legislature and on the first day that by law you were permitted to vote on this question. The honor conferred is made more distinguished from the further fact that it has been bestowed upon me while separated from my State by three thousand miles, and removed from all possibility of exerting personal influence upon your action. All this increases within me the feeling of responsibility which the high office brings, and strengthens my ambition to work, if possible, with more zeal for the interests of the people who have so often honored me with their confidence. I shall endeavor to act in the future as in the past, as far as in my power lies, in accordance with the principles enunciated by the Republican national platform, and shall ever bear in mind the truth that he who best serves his State best serves his political party.

GEORGE C. PERKINS.

On motion of Mr. Bettman, the communication was ordered printed in the Journal of the Joint Assembly.

PETITION—(OUT OF ORDER).

Senator Smith presented the following petition, which, by unanimous consent, was ordered printed in the Journal:

PETITION FOR NORMAL SCHOOL AT SAN LUIS OBISPO, CALIFORNIA.

To the Honorable Legislature of the State of California:

Your petitioners desire to present to the Senators and Assemblymen of the State of California in Legislature assembled, and to his Excellency the Governor of the State, the following facts and petition, in order that they may take intelligent action upon the proposition of granting an appropriation for the establishing of a State Normal School in the City of San Luis Obispo, California:

COMPARISON OF AREAS.

We would call your attention to the great area of our State—being about the area of all the New England States and the great States of New York and Pennsylvania in addition, and having a length of more than seven hundred miles from northwest to southeast. An equal distance on the Atlantic coast would extend from the northern line of Connecticut to the southern line of South Carolina.

NECESSITY FOR ANOTHER NORMAL SCHOOL.

We make this comparison in order to show that in a like area on the Eastern coast there are one hundred Normal Schools, besides a great number of other institutions of learning, while in our State there are but three Normal Schools. These, as well as the State University and independent institutions, are overcrowded—there being in the Normal School at San José seven hundred students, at Los Angeles six hundred, and at Chico four hundred and fifty. Superintendent Black in his last report calls attention to this state of affairs, and dwells upon the disadvantages of overcrowded classes.

PECULIAR ADVANTAGES OF SAN LUIS OBISPO AS A LOCATION FOR A NORMAL SCHOOL.

The Normal School at Chico is situated in the northern part of the Sacramento Valley. Between San José and Los Angeles is a distance of four hundred miles. San Luis Obispo is situated midway between these two schools, and for the purpose would be the center of an area of thirty thousand square miles of a populous and productive portion of the

State. That such a vast area, so full of resources and advantages, is entitled to most careful consideration in matters of educational facilities is apparent to every statesman and good citizen.

DESIRABILITY OF THE CITY OF SAN LUIS OBISPO AS A LOCATION FOR A NORMAL SCHOOL.

The City of San Luis Obispo lies within the limits of the trade winds from the Pacific Ocean, and is the nearest point on the ocean to the great interior valley of the Upper San Joaquin from Fresno southward. The healthfulness of the locality and the salubrity of the climate are not surpassed by the most favored spots of the world. These facts are so well known as to make a detailed statement of meteorological conditions seem superfluous. We will, however, say that the records of rainfall and temperature have been kept for the past twenty-five years, showing an average annual rainfall of 21 inches, and an average temperature of the four warmest summer months of 63°, and of the four coldest winter months of 52°. No section of the State can present a more favorable record. In all the record of twenty-five years there are not five days showing a higher register of temperature than 100° in the daytime, and in no night of the history of San Luis Obispo has there been an uncomfortable one for sleeping. While light white frosts occur nearly every year, hard freezing is unknown.

The following comparative statement for the two years last past, prepared by the Government observer stationed here, will bear us out in these claims:

"U. S. Department of Agriculture, Weather Bureau, Office of the Observer, San Luis Obispo, January 9, 1897. Gentlemen: I have the honor to report that from the meager data on file at this station, I find that for the years 1894, 1895, 1896, the maximum temperature was: Los Angeles, 103°; San Diego, 98°; Red Bluff, 109°; Fresno, 111°; San Luis Obispo, 99°. Lowest temperature: Los Angeles, 32°; San Diego, 32°; Red Bluff, 27°; Fresno, 28°; San Luis Obispo, 28°. Highest wind: Los Angeles, 30; San Diego, 35; Red Bluff, 46; Fresno, 34; San Luis Obispo, 33. The mean of two years at San Luis Obispo is as follows: Mean barometer, 30.04; temperature, 58.9°; highest, 99°; lowest, 28°; dew point, 46°; humidity, 70; rainfall, 19.47 inches; clear days, 195; partly cloudy, 108; cloudy, 62; rainy, 48; foggy, 37. Average wind velocity, 5.2 miles per hour. The annual reports of this bureau for 1895 and 1896 are not yet published, so I cannot furnish any data comparing San Luis Obispo with other stations. Very respectfully, John K. Williams, Observer."

For a comprehensive report of meteorological conditions at San Luis Obispo, extending over a number of years, see report of Sergeant James A. Barwick for the year 1889, pages 136 and 137, published at State Office.

The City of San Luis Obispo is the county seat of San Luis Obispo County, and is one of the choice locations in the State. It is one of the old mission towns, its mission having been established in 1772; is a city of the sixth class, having a population of about four thousand; a well organized city government, with efficient fire and police departments; is well supplied with water by a complete system of water-works; is supplied with electric lights, gas, street railways, telephones, etc.; has a good sewer system, a public library, free reading-room, churches of many denominations, two daily and three weekly newspapers. No malaria exists in the atmosphere, and contagious and infectious diseases are never epidemic. County Superintendent Messer, who has been a teacher in our public schools for six years, says that San Luis Obispo has no superior as a locality in which constant mental effort may be sustained. He states that during the six years not ten days occurred in which students would feel discomfort in pursuing their studies on account of heat.

ACCESSIBILITY.

The Southern Pacific Railroad passes through the city, soon to be the great thoroughfare between the northern and southern parts of the State, and the route of trans-continental travel and freight. A branch of the Southern Pacific now extends from Bakersfield westward to the eastern border of San Luis Obispo County, with the promise of extension to intersection with the main north and south line of that road. There will also soon be constructed an independent railroad connecting San Luis Obispo City and harbor with the chief cities of the Upper San Joaquin Valley. The Pacific Coast Railway, with a length of near 80 miles, connects the city and harbor with the various towns of Santa Barbara County north of the Santa Ynez Mountains. The great ocean fronts the county, and with the best harbor between San Francisco and San Diego affords cheap transportation, and as a competitor will always maintain low schedules. At this harbor the National Government is now constructing a breakwater which will make of San Luis Obispo Bay a harbor of ideal perfection.

OTHER ATTRACTIONS.

The region is diversified with hills and valleys, affording the most beautiful and picturesque scenery of California; scenery never tiring to the eye, attractive and ennobling to students and artists. The geological and mineralogical formation is such as to constitute an endless and very useful subject of study. San Luis Obispo County is distinguished for its many and varied rocks and minerals, and these offer subjects for the practical student as well as material for building purposes. Our seaside resorts are unsurpassed by any in the State. The famous Pismo Beach, affording a continuous drive of twenty-five miles, is situated ten miles to the southward; Morro, one of the most popular resorts for families from the interior, twelve miles northward, and Avila, near Port Harford, nine miles westward.

CHEAPNESS OF LIVING.

San Luis Obispo is situated within a few miles of the Arroyo Grande Valley, the prize garden spot of the world, and is surrounded by dairies, orchards, and vineyards. Meats, fruits, and vegetables are abundant and cheap the year round, making this one of the most desirable places in the world for students who must practice economy in their living.

OUR OWN NEED OF A NORMAL SCHOOL.

This county alone now annually graduates from the grammar schools nearly one hundred pupils, who by their diplomas of graduation are admitted to the State Normal School at San José without any examination. Many of these graduates have gone at great expense to the Normal Schools at Los Angeles and San José, and many more are anxious to go, but are not able to bear the expense. This county has employed for a number of years about thirty-five per cent of its teaching force from the City of San José, while our own young people, the peers of any in the State in natural endowments, are doomed to less honorable and lucrative employment because advanced educational facilities are not within their reach.

CONCLUSION.

The foregoing facts and figures are sufficient to show why the City of San Luis Obispo should have precedence of all cities on the southern coast as an eligible location for a State Normal School. In the geographical center of a large, populous area; unexcelled in climatic advantages and healthfulness; easily accessible from all points; its diversified scenery and seaside attractions; its desirability as a residence locality; its assured growth in the immediate future; its advantages for economical living; and the great and increasing necessity for such a school for the accommodation of the young people who inhabit this region, San Luis Obispo presents claims worthy of the consideration and affirmative action of our honorable State Legislature and his Excellency Governor Budd. For such consideration and affirmative action your petitioners will ever pray.

The foregoing was presented to the citizens of San Luis Obispo, in mass meeting assembled, by a committee consisting of Myron Angel, W. A. Henderson, and J. K. Tuley, they having been appointed for the purpose, and the report was adopted by the citizens in meeting assembled; at which meeting it was

Ordered, That the secretary of this meeting be directed to forward copies of the report of the Committee on Petition to the Legislature, to the Hon. S. C. Smith, and to the Hon. J. K. Burnett, at Sacramento, with a request that they use every honorable endeavor to induce the passage of an Act for the establishment of a Normal School at the City of San Luis Obispo.

JOHN WHICHER, Secretary.

QUESTION OF PRIVILEGE.

Senator Withington stated that the figures furnished him by the State Controller from the payroll of the present session showed at the end of the second week a per diem of \$518; that the payroll at the end of the second week of the session of 1895 showed a per diem of \$722, a decrease by the present Senate of \$204 per day; that the total amount paid for officers and attachés at the end of the second week of the session of 1895 was \$3,923, and for the second week of the present session \$2,626 50, a reduction in favor of the present session of the Senate of \$1,296 50, or a per diem reduction of \$185 22; that the committee attachés in the session of 1895 were not appointed until late in the week, which explains the difference between the \$204 and \$185 22.

DICKINSON, Chairman.

Senator Withington presented the following as a partial report of the Committee on Legislative Business, appointed at the thirty-first session:

ON LEGISLATIVE BUSINESS.

To the Legislature of the State of California:

The Committee on Legislative Business, appointed at the thirty-first session of the California Legislature by the Senate thereof, and in accordance with the following resolution:

"Resolved, That a committee, consisting of three hold-over Senators, be appointed by the President pro tem, whose duty it shall be to report to the Legislature, at its next session, a better and cheaper method than the present of proceeding with legislative business; to perfect a better system of making up files, histories, etc., which will provide each member with a complete transcript of the business of both houses up to the time of convening each day; to simplify the clerical work at the desk and in the several offices, so that the work assigned each can be more readily performed; to lessen the necessity for so much printed matter, and to make such other recommendations the adoption of which they deem would expedite the business and facilitate the work of the Legislature."

Have performed the duties assigned to them, and herewith submit their report:

In suggesting a better and cheaper method than the present of proceeding with legislative business, the committee has carefully examined the present manner of conducting business by both the Senate and Assembly in the past sessions of the Legislature, and believe that work could be more effectively done under systems and in the manner that is provided for hereafter.

We are aware that our appointment for the performance of this work comes from the Senate only. We feel, however, that our work would be incomplete should we fail to embody in the rules which we have formulated, and also in the form of record which we have incorporated in this report, full provision for a complete system of legislation. Any suggestions under the theory of the resolution under which we are acting must inevitably come from a continuous body.

We do not desire to officiously intermeddle with the work of the Assembly; we recognize that it is a coordinate branch of the Legislature, possessing all the powers of the State Senate in the matter of providing for its own government and control. Whatever is suggested in these rules for that branch of the Legislature comes simply as a recommendation, and we are persuaded that the distinguished gentlemen who compose that body will not regard our suggestions as an intrusion, but will weigh what we have submitted to them with the same tenor and sincerity as though we were under the direction of that branch of the Legislature.

Many members of the Assembly have given us valuable suggestions, all of which are incorporated in this report.

We are under obligations to many Senators and Assemblymen with whom we have discussed the rules which we submit, and in prosecuting our inquiry we have availed ourselves of every possible source of knowledge, with the sincere desire to submit such a code of rules, and such a method of legislative business, as will inure to the benefit and welfare of the great State we represent.

We have endeavored in our report to cover three essential points:

First—To make more certain what has been done, or what is before the legislative body, and what is proposed to be done.

Second—To provide for a more complete revision of measures.

Third—To consider general legislation in the earlier part of the session, so as not to be crowded during the last few days thereof, thus relieving the Governor of the Herculean task of hastily considering measures that require deliberation.

We would call the attention of the Senate to the report of the special committee, as found in the Journal of 1895, on Tuesday, February 19th, in which is shown the number of employés, the salary paid to each, and various items that is to be considered as a portion of this report. The special committee have described the duties of the various officers and employés of the Senate, and we would recommend that the officers and employés be guided in their duties as set forth in the said report, in so far as it does not conflict with this report.

Under the rules as submitted herewith, it is contemplated that opposition to a measure shall be exercised upon the second reading, and if a majority is opposed to a measure, it shall not be considered after second reading.

Your committee has corresponded with every State and Territory of the United States, as well as nearly every foreign nation, in relation to the subject. In doing so we have been enabled to compare the legislative practice as established in California, and find that, with few exceptions, the mode of conducting legislative business by the California Legislature is better and *simpler* than that in general use.

The pay of officers and attachés is greater than that of most other legislative bodies, and should be reduced. The positions and places are too numerous. From reliable information gathered through statistics furnished, we find that California had a greater number of attachés by from forty to one hundred per cent during the last session of the Legislature than other like bodies of the United States; while the governing bodies in foreign countries in each instance, excepting France, pay a much less per diem to their employés.

In recommending a reduction in the number of employés, as well as the per diem paid, we have estimated a saving to the State of at least \$1,000 per day.

We believe that the work to be done by officers, attachés, and employés can be done as well as heretofore, and the best interests of the State subserved.

We submit a bill herewith, to which reference is made, that we believe should become a law.

Notable changes made therein are the combining of the duties of the Enrolling and Engrossing Clerks in one person, and as there is but little work in this office until the thirtieth day of the session, we recommend that the Assistant Clerks in this office be not elected until that time.

The number of Porters is reduced, as the care of the building is under the direction of the Secretary of State, and Porters are only needed for the care of the Senate and Assembly Chambers, and committee rooms.

The Messengers to Committees are not necessary, as the Sergeant-at-Arms of the respective houses should perform the duties heretofore assigned to Committee Messengers. We therefore make no place for these employés.

It has been demonstrated that a saving in time and labor would be made by the employment of stenographers and typewriters, and we suggest that they be added to the list of attachés.

At the thirty-first session of the Legislature there were employed 322 persons by both houses, at a cost to the State of \$1,603 per day, as follows:

170 employés, etc., in Senate, at a cost of	\$785 00 per day.
152 employés, etc., in Assembly, at a cost of	818 00 per day.

In recommending those that we believe necessary, we have reduced the number two thirds, and the cost thereof in a like manner. The following list of attachés we con-

sider all that are required for the transaction of business, unless in extreme cases, which we have provided for by bill accompanying this report:

In order to make the Daily Files less cumbersome, and in order, also, to better enable the members of the Legislature to be informed daily of the condition of the matters before either body, we would suggest that a form of Daily History be adopted similar to that in use in some other legislative bodies. In this particular matter we have investi-

gated calendars, files, and histories now in use by all the States and Territories in the United States, as well as in foreign countries, and would recommend the adoption of the accompanying form of history. It will show exactly the position of the bills, resolutions, etc., at the close of the session of the preceding day, and will contain an index showing the name of each Senator or Assemblyman, as the case may be, and the number of each and every bill introduced by him.

In the matter of a General File we would recommend, in order to avoid confusion, that a "Special Order" File be not considered with the Daily File.

In order to lessen the amount of work, as well as the cost of printing the Daily File, we would recommend that all bills, when introduced, be read the first time and referred to committee, and unless a bill receive favorable consideration at the hands of the committee it be not printed, unless ordered by the Senate or Assembly. The amount of estimated cost of bills that are not considered after the first reading makes an item of considerable importance in the printing that is done for the Legislature.

We believe that the size of the bills as used heretofore is not only cumbersome, but printed at too great a cost. We would, therefore, recommend that all bills in the future be printed in smaller form and in the style known as the "chapter form."

In recommending the change of printing of bills in chapter form we have in view the use of files for such bills, and also for the Journal, as are in use in many other legislative bodies, and we have provided for additional Bill Filers in each house, whose duties it shall be to see that all papers placed on the desks of members shall be put in the proper places in the files. By this provision the Weekly Journals can be dispensed with.

If bills were not printed unless favorably considered or recommended by the committee to whom they have been referred, it is estimated by your committee that the saving to the State would be about \$8,000 at each session of the Legislature. (This estimate is based on the cost at the thirty-first session.)

We herewith submit, in this report, a tabulated statement of the cost of printing done for the thirty-first session of the Legislature. It will be noticed that the total cost of printing was \$77,508 63.

In addition to the amount paid for Assistant Engrossing and Enrolling Clerks, the cost of printing engrossed and enrolled bills of the Senate and Assembly was \$7,600.

At the last two sessions of the Legislature, Engrossing and Enrolling Clerks have both been provided for, at a large cost to the State, while the actual work has been performed by the Superintendent of State Printing.

Your committee have framed a set of Joint Rules for the consideration of the Legislature, and trust that they may be adopted. Several changes have been made in the Rules of both the Senate and Assembly, as well as in the Joint Rules.

We find that in addition to the amounts appropriated by the Senate and Assembly for the pay of officers and clerks, there was appropriated for additional attachés and employes not provided for by statute—in the Senate, the sum of \$42,795, and in the Assembly the sum of \$39,275. These amounts are represented in pay to numerous officials that, in the opinion of your committee, could be easily dispensed with.

We recommend that but one Assistant Engrossing and Enrolling Clerk be appointed at the same time as the Enrolling and Engrossing Clerk, and that two additional assistants be appointed on the thirtieth day of the session, at a per diem of \$6.

Heretofore it has been the custom to appoint a clerk for each committee. In some instances, such as the Judiciary and Finance Committees of the Senate, and the Judiciary and Ways and Means Committees of the Assembly, it is necessary to have at least one if not two clerks for each committee, and in almost all other cases your committee believe that it would be proper to assign the work of the committees to ten clerks, who shall be required to perform the duties of the committees to which they have been assigned. In this one item there can be made a saving of \$300 per day.

It will be noticed in the bill recommended by your committee that they have named ten committee clerks as a sufficient number to transact the business of all committees of each house. In doing so they consider the fact that numerous committees really require no clerks, and as several committees meet in the same room and at different hours, it permits of one person attending to the duties of committee clerk. Several committees meeting in one room can receive the proper attention and have their work properly carried out by the employment of the same individual as clerk.

We believe that in the matter of printing rules it would be advisable to adopt a style of binding and form of printing the Rules, Joint Rules, list of Members, Senators, and committees, and other data that would be of advantage to members of the Legislature. We would, therefore, recommend that the proper officials be directed to print, in a convenient size and suitable type, a "vest-pocket form of Rules, Joint Rules, and other matter pertaining to legislative practice," this book to be known as the "California Handbook on Legislative Practice." In recommending that the rules be printed in this form we would call attention that it does away with the cumbersome forms that have been used previously, and permits the Senator having same in his possession the opportunity of referring to the rules without hunting through the vast quantity of printed material that on nearly all occasions lies upon the desk occupied by him in the Senate or Assembly Chamber.

Your committee deem it advisable that bills printed in either branch of the Legislature should not be printed by the other, unless some extraordinary occasion demand same. This will avoid confusion, as well as stop an unnecessary expense. It has been the custom heretofore to introduce the same bill in both houses at the same time, and

when one bill has passed either house and sent to the other, it has been substituted on the file for the identical or corresponding bill introduced in that house. This has, in the past, added confusion and dissension, and caused no little amount of trouble. We believe that the plans we have suggested for the passage of bills are such that progress can be made without any substitution as formerly done.

In reducing the number of members on the Judiciary Committee of the Senate, we have done so with the object in view of placing thereon only such members as are attorneys at law.

Heretofore it has been the custom to have the Journals printed without any marginal notes. We recommend that hereafter the Daily Journal shall have marginal notes referring to matters of importance, or to those matters that may be of use to either the Legislature or to individuals. The reason for recommending this change in the Journal is, that in itself it forms a partial index, and in hunting for record it can be more easily obtained by reference to the margin than by reading the Journal through-out.

We would recommend that the Secretary of the Senate and Clerk of the Assembly be required to keep a book of record, in such form as can be readily understood, showing the date that all bills were sent to committee, as well as time returned from committee; and the Secretary and Clerk shall, at the expiration of the time allotted to the committee for the consideration of any bills, notify the committee holding same, when they have not been returned.

The Committee on Revision has been a factor of great importance and use in other legislative bodies, as in the case of New York, where a commission was appointed by the Legislature of 1895 for the purpose of revising legislative procedure. They recommended by statute a Committee on Revision in each house, with a counsel to each committee.

We have added to the Joint Rules a rule providing that no bill shall be placed upon its final passage until it shall have been printed and distributed at least three hours previous to its consideration.

We also submit a Joint Rule providing for a Committee on Rules and Revision, in both Senate and Assembly, to consist of three members in each house. It is the intention to have all bills submitted to this committee before the third reading and after second reading. It shall be their duty to examine and correct, for the purpose of avoiding repetitions and unconstitutional provisions, and to insure accuracy in the text and references, and consistency with the language of the existing statutes. Such committee shall also report whether the object of the bill can be secured under existing laws. Any changes in the sense or legal effect, or in the construction, shall be reported as a recommendation, and not as an amendment.

The Joint Rules provide that no bills shall be introduced after the fiftieth day of the session, nor shall any bill be presented to the Governor for approval subsequent to the twelfth day preceding the day of adjournment *sine die*, excepting revenue bills, deficiency bills, and bills for claims against the State.

While it would seem that the twelve days preceding the day of adjournment would not be utilized, your committee would suggest that all bills for deficiency in the State government, all bills providing for claims against the State, joint and concurrent resolutions (unless otherwise ordered), the General Appropriation and Tax Levy bills, be deferred until such time for action.

In making this recommendation we believe that it would be an advantage in more ways than one, principally in permitting other bills to be recognized at the first part of the session, and placing the bills enumerated above together, to be acted upon when other bills of different character could not be considered.

We would suggest that certain sections of the Political Code be amended to conform to the rules that are herein offered for your approval.

There shall be printed daily, by the Senate and the Assembly, a History in the following form:

PRESIDENT: Your Committee on Finance has had under consideration Senate Bill No. 58—An Act to appropriate money for the erection of a monument upon the plot of ground belonging to the Sacramento Association of Veterans of the Mexican War, situate in the City Cemetery of Sacramento, and for the improvement of said grounds.

Your committee is not unmindful of the great service rendered to the State of California by the veterans of the Mexican War, and is in full sympathy with that sentiment of patriotism which aims to preserve the memory of their achievements, but your committee deem it unwise to recommend the appropriation herein sought, as it contemplates the building of a monument by the State on a plot of ground not owned by the State, and places the custody of the monument in a local association. Should the allowance of public money be made, Mexican War veterans residing in counties other than Sacramento could with equal justice ask the State for appropriations in behalf of their respective associations.

Your committee is therefore constrained to report the bill back, and recommend that it do not pass.

Resolution adopted.

On motion of Senator Androus, Senate Joint Resolution No. 11 was taken up and considered.

SENATE JOINT RESOLUTION No. 11.

Requesting Congress to impose a tariff on foreign fresh table-grapes competing with the American product.

Resolved by the Senate, the Assembly concurring, WHEREAS, In the memorial to Congress adopted by the fruit-growers of California in convention assembled at Sacramento on the 2d day of December, 1896, a request that a tariff be imposed upon imports of fresh table grapes was overlooked, and not intentionally omitted from the schedule adopted; and

WHEREAS, There are annually imported into the United States many millions of pounds of grapes that come in competition with those grown in this country; and

WHEREAS, The tariff law of 1890—the McKinley law—whereby a specific duty of two cents per pound was imposed upon fresh table-grapes, was amended in 1894 by making it an ad valorem tariff of twenty per cent, equal to about eighty-one cents per one hundred pounds; and

WHEREAS, It must be remembered in fixing the schedule for foreign grapes, competing with ours, that our principal markets lie about three thousand miles away from our vineyards, and that the cost to California growers for transportation alone, to New York and other Eastern markets, is about two and one half cents per pound, while, generally speaking, the cost of transportation on imported fruits is about thirty cents per one hundred pounds, which, together with the import duty of eighty-one cents per one hundred pounds, makes the total cost to the importer \$1 11 per one hundred pounds, while the California growers have to pay for transportation alone about \$2 50 per one hundred pounds, or about \$1 40 more per one hundred pounds than the importer; and as we believe the California producer should have at least one cent per pound clearly protective over the foreign producer; therefore, be it

Resolved, That the Congress of the United States be and is hereby requested to add to the twenty per cent ad valorem tariff now imposed a specific tariff of two and one-half cents per pound upon all fresh table-grape importations;

Resolved, That the same be printed and duly attested, and a copy forwarded to each Senator and Representative in Congress now serving, and to each Senator and Representative of the Congress to assemble after the 4th of March, 1897, and that the Senators and Representatives from California at the time serving as such be and they are hereby especially requested to give the subject of this resolution their most earnest attention and support, and to press the same upon the attention of the Ways and Means Committee of the House of Representatives and the Committee on Finance of the Senate.

Resolution read.

PETITION.

The following petition was presented by Senator Androus, and ordered printed in the Journal:

SOLDIERS' HOME, LOS ANGELES COUNTY, CAL., January 19, 1897.

Senator S. N. ANDROUS:

SENATOR: At a meeting of the delegates from the National precincts to the last Republican County Convention, the following protest was adopted and ordered sent to W. S. Melick, Assemblyman from the 70th District, and that copies be sent to Senators Bulla and Simpson:

WHEREAS, A bill has been introduced in both houses of the Legislature, the effect of which is to deprive residents of Soldiers' Homes of the right of suffrage in school districts. It is aimed at the members of the National Home in Los Angeles County.

Therefore, we do most earnestly urge you to oppose the passage of this bill by all honorable means: Because it is wrong in principle, to wit: in that the right to vote at elections in school districts does not depend upon any special privilege or qualification, but is the right of every citizen.

If this bill is enacted into law, it takes away a right as old as the State, a right hitherto unquestioned, the exercise of which right has caused no injury to the public schools, nor to the well-being of any citizen.

Any statement, by whomsoever made, that the right to vote in school districts has been exercised by members of the National Home to the detriment of any public school is not true. Upon this point we invite the closest scrutiny.

No body of citizens knows better the value of education, and none are more loyal to the public schools than the veterans of the Civil War.

At various times, other "homes" than Soldiers' Homes have been established within the State—corporate homes for the aged and unfortunate; a Masonic Home; an Odd Fellows' Home; all of which were instituted for the most worthy purpose of caring for those who need help. The beneficiaries of these homes are properly left in the full enjoyment of all their civil rights, including the right to live in school districts. Therefore, we believe that the bill to which we refer discriminates against and disqualifies only those who have earned the right to live in a Soldiers' Home. Are the Representatives and Senators of the State of California ready to single out the disabled veterans of the War of the Rebellion and put upon them a mark of inferiority such as this bill seeks to confer?

Finally, we ask you to oppose and prevent the passage of this bill, for the further reason that it is the sign of a purpose to deprive the disabled veterans living in Soldiers' Homes of the right to vote at any election. It is the entering of the thin end of the wedge; an unfriendly Legislature will drive it home.

SUBSTITUTE FOR SENATE BILL No. 17.

An Act to amend an Act entitled "An Act amendatory of and supplemental to an Act entitled 'An Act to create a Police Court in and for the City and County of San Francisco,'" which said amendatory and supplemental Act now amended was approved February 23, 1893, and to fix the term of office of the Judges of said Court.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. Section one of an Act entitled "An Act to create a Police Court in and for the City and County of San Francisco, State of California," approved March fifth, eighteen hundred and eighty-nine, and amended February twenty-third, eighteen hundred and ninety-three, is hereby amended to read as follows:

Section 1. There is hereby created and established in and for the City and County of San Francisco, State of California, a court to be known as the "Police Court of the City and County of San Francisco," which court shall consist of four judges who shall be elected at the general elections held according to law at which the Governor of the State of California is elected, each of whom shall hold office for the term of four years, any one or more of whom may hold court. The court shall be divided into departments known as Department Number One, Department Number Two, Department Number Three, Department Number Four. There may be as many sessions of said court at the same time as there are judges thereof. The judges shall choose from their number a presiding judge, who may be removed at their pleasure. He shall assign the judges to their respective departments; *provided, however*, that either of the judges may preside in either of the departments in the absence or inability to act of the judge regularly assigned thereto. The judgments, orders, and proceedings of any session of said court, respectively, shall be equally effectual as if all of the judges of said respective courts presided at such session.

SEC. 2. Section five of said Act is hereby amended so as to read as follows:

Section 5. The District Attorney of the City and County of San Francisco shall have the conduct and attend to the prosecution of all actions, cases, and proceedings coming before said court. He shall appoint an Assistant District Attorney for each of the departments of said court, who shall receive a salary of two hundred and fifty dollars per month. The District Attorney shall also appoint a chief warrant and bond clerk, whose salary shall be two hundred dollars per month, and four assistant warrant and bond clerks, whose salaries shall be one hundred and twenty-five dollars per month. It shall be the duty of the warrant and bond clerk to keep his office always open, day and night, for the transaction of business; to draw complaints in actions in the Police Court; to take and approve bail and appeal bonds when the liability thereof does not exceed one thousand dollars, and to order the discharge from custody of the persons for whose appearance the bonds are taken; to take cash bail to the extent in any one case of one thousand dollars; to have the custody of all bail and appeal bonds taken in or for the Police Court, to examine the sufficiency of every bail and appeal bond taken in or for the Police Court, and to make a return thereon within twenty-four hours after such bond shall have come into his possession, in the following form:

"I, ———, warrant and bond clerk of the City and County of San Francisco, have examined the within bond and find it good in law. I have examined the records of the City and County of San Francisco and find the property, its owners, and incumbrances herein described to be correct according to said records." Signed: ———, Warrant and Bond Clerk of the City and County of San Francisco.

The warrant and bond clerk shall also indorse upon the bond the time when it was issued by him, or when it came into his possession. The chief warrant and bond clerk shall keep a record of all bonds that are forfeited, and it shall be the duty of the City and County Attorney to begin suit for the recovery of the amount for which the bondsmen are liable to the State of California immediately after the bonds are declared forfeited.

Each of the warrant and bond clerks shall be required to account for all moneys received as bail, and make a record of the same in the manner now required by law of the clerks of the Police Court. The power of said clerks to issue bonds and to order the release of prisoners is hereby abolished.

In the matter of fixing bail and ordering the release of prisoners, the warrant and bond clerks shall be subject to the orders of the Judges of the Police Court, and any violation of a valid order of said judges shall be a contempt of court.

For any failure to keep his office open continuously, the warrant and bond clerk failing to perform his duty shall be liable to a penalty of one hundred dollars, to be collected in a civil action, one half thereof going to the person or persons securing a judgment against the warrant and bond clerk, and the other half going to the City and County of San Francisco. Each of the warrant and bond clerks shall execute a bond in the sum of ten thousand dollars to indemnify the City and County of San Francisco against loss caused by his malfeasance or gross negligence, or that of any of his assistants.

SEC. 3. Section six of said Act is hereby amended so as to read as follows:

Section 6. The County Clerk of the City and County of San Francisco shall be the ex officio clerk of the Police Court, and for the purpose of transacting the business of clerk of said court, may appoint four deputy county clerks, one for each department of the said Police Court, who shall transact all the business as now provided by law, and shall receive as compensation for their services a salary of one hundred and seventy-five dollars per month.

SEC. 4. Section eight of said Act is hereby amended so as to read as follows:

Section 8. There shall be appointed by the judge of each department of said court a stenographer, who shall receive a salary of one hundred and fifty dollars per month for reporting, and for transcription, ten cents per folio of one hundred words for the original, and five cents per folio for a copy.

SEC. 5. Section ten of said Act is hereby amended so as to read as follows:

Section 10. The City and County Auditor shall prepare and deliver to the County Clerk for use in the Police Court as many official receipts as may be required. The Auditor shall sign such receipts and deliver them to the County Clerk specifying in the charge the amounts thereof named in such official receipts, and the class of receipts, respectively, taking receipts therefor, and said clerk shall countersign the same; and upon the payment of any fine imposed by the Judge of the Police Court, he must deliver to the person paying the same an official receipt for the amount of such fine, and shall daily pay to the City and County Treasurer all moneys so collected or received by him; and shall under oath, on the first day of each month, and oftener, when required so to do by the Auditor, make to the Auditor a report of all such official receipts issued and used by him during the preceding month, and on hand at the close of official business on the last day after the preceding month, and of all moneys so paid by him to the Treasurer during the preceding month, and shall at such time exhibit to the Auditor all unused official receipts, or official receipts not issued remaining in his hands and the Treasurer's receipts for all moneys paid into the treasury. Whenever any money is deposited with the County Clerk as bail money, the County Clerk must deliver to the person depositing such money an official receipt therefor, signed by himself, written upon an official receipt countersigned and furnished for that purpose by the Auditor, and shall daily pay to the City and County Treasurer all moneys so collected or received by him, taking the Treasurer's receipt therefor. The said money shall be received and kept by the Treasurer as a special deposit, and shall be paid out by him on the order of the Judge of the Police Court, if the bail is exonerated, in the same manner as deposits of money in the custody of the Treasurer belonging to estates of deceased persons are paid out. At least one day shall intervene between the deposit of the money with the Treasurer and the payment on the order made by the Judge of the Police Court. The Treasurer shall be liable on his official bond for the safe-keeping and disbursement of all money so deposited with him; but nothing contained in this Act shall be construed or held to relieve the County Clerk from any liability for his acts in relation to moneys collected or received by him. All official receipts must be kept and bound in books containing not more than one hundred such receipts, each receipt and stub thereof bearing a number, beginning with number one in each class for each fiscal year, and numbered in consecutive order. When a receipt is issued or used by the County Clerk, he must enter on the stub corresponding with the receipt the name of the person making the payment of the fine or depositing the money as bail, the offense of which the person was convicted, and the name of the person convicted, or the offense of which the person bailed is charged, and the name of the person bailed, and the date and amount of the payment or deposit. Any person making, issuing, or giving a receipt for money received in payment of a fine, or for money deposited as bail, other than the official receipt countersigned and furnished by the Auditor, is guilty of a felony.

Sec. 6. Section thirteen of said Act is hereby amended so as to read as follows:

Section 13. At least one of the judges, and the deputy county clerk assigned as clerk of such judge's department, shall be constantly in attendance in the court-room or chambers each day, Sundays excepted, until the hour of five o'clock P. M., and it shall be the duty of the presiding judge to see that the provisions of this section shall be faithfully complied with.

Sec. 7. The appointments provided for in this Act by the District Attorney and County Clerk shall not take effect till the first Monday in January, eighteen hundred and ninety-nine.

HEADQUARTERS CAMP No. 8, ARMY AND NAVY REPUBLICAN LEAGUE, {
LOS ANGELES, CAL., January 23, 1897. }

To Senator S. N. ANDROUS, *Sacramento, Cal.*:

At a regular meeting of the above camp, the following protest was unanimously approved and copies ordered sent to our representatives at Sacramento:

WHEREAS, It having come to our knowledge that a bill, known as Assembly Bill No. 290, has been introduced in both houses of the Legislature, the effect of which is to deprive the inmates of Soldiers' Homes of the right of suffrage in school elections, it being aimed at the members of the National Soldiers' Home in Los Angeles County.

Therefore, we most earnestly urge you to oppose the passage of the bill by all honorable means, because it is wrong in principle, to wit: in that, to vote at school elections in school districts does not depend upon any special privilege or qualification, but is the right of every citizen.

Finally, we ask you to oppose and prevent the passage of this bill for the further reason that it is the sign of a purpose to deprive the disabled veterans living in Soldiers' Homes of the right to vote at any election.

FRED W. STEIN, Colonel Commanding.
SAM KUTZ, Chairman Committee.

Attest: JOHN DAVIS, Adjutant.

REPORT OF SUB-COMMITTEE ON HOSPITALS.

SENATE CHAMBER, SACRAMENTO, January 25, 1897.

MR. PRESIDENT: The Sub-Committee on Hospitals, appointed by the Chairman to investigate and report upon the sanitary condition and medical features of the management of the Mendocino Insane Asylum at Ukiah, of the Home for Feeble-Minded at Glen Ellen, of the Veterans' Home at Yountville, and of the State Insane Asylum at Napa, beg leave to report that they have visited and carefully investigated the State institutions named, and desire to report as follows:

The asylum at Ukiah was cleanly, the patients comfortably clothed and cared for, and the sanitary condition of the institution much better than on the visit of the legislative committee two years ago. A large marsh near the asylum has been drained, as recommended by the previous legislative committee; the sewage-disposal plant has also been completed as recommended. More water is needed for the use of the asylum, especially for fire protection, and an electric light plant would add to the safety and convenience of the institution. The ice plant asked for is greatly needed, on account of the summer climate, and the same could be operated by either the use of the steam power or by water power, of which the directors claim there is an abundance in a near-by cañon.

The Home for the Feeble-Minded is well conducted, and everything that can be done to ameliorate the condition of these most unfortunate wards of the State is being done. We found the personal cleanliness of the lower-grade children vastly improved since the last legislative inspection two years ago. An electric light plant here is most desirable also, and some of the cottages asked for, if built, will greatly improve the

institution. The cottage system of caring for patients in public institutions is now indorsed by the highest medical authority, as it enables the patients to be more completely divided into classes and groups and furthers the individualized treatment of the inmates. With cottages surrounded by proper fencing it would be possible to allow the lower-grade patients to spend much time out of doors during the fair weather, thus giving them an abundance of fresh air, which is one of the best remedies in the treatment of this class of disease. In any event they should be moved out of the top story of the building.

The Veterans' Home is wonderfully changed for the better during the last two years. Not only have new buildings been erected, adding greatly to the capacity of the institution, but the wards are far brighter and more cleanly than when last visited, and the sanitary condition of the establishment, especially the closets and washing arrangements, have been entirely changed, and everything is now clean and odorless. This is in line with the recommendation of the committee on its previous visit.

At the Napa Asylum, the welfare of the patients seems to leave little to be desired. Everything is cleanly and comfortable, and the inmates are well cared for. A clinical history of every case in the institution has been ordered by the Board of Trustees, who have added the following sections to their by-laws:

Section 4. They shall keep clinical records of cases, under direction and supervision of the resident physician, in the following manner: Upon admission to the asylum, during the first month, daily; during the second and third months, bi-weekly; during the fourth and fifth months, weekly; during the sixth and seventh months, once in two weeks; during the eighth and ninth months, once in three weeks, and during the tenth, eleventh, and twelfth months, monthly. From and after the close of the first year, a clinical record of all cases shall be made every two months, unless death or recovery takes place, or a leave of absence is granted. When any patient, either acute or chronic, is suffering from acute bodily disease, so as to be confined in bed, or under treatment, a daily report of the case shall be kept; also, any unusually nervous or mental manifestation occurring in any case is to be recorded at the time, and daily during its continuance.

Section 5. They shall prescribe and superintend the administration of medicines under the direction and supervision of the resident physician, and shall state in the clinical record the kind and amount of medicines and stimulants prescribed, and the hours when given. In addition to the above, the clinical record shall show the condition of the bodily and mental functions at the time of the examination of the patient, and also all the means and methods used to give relief or further recovery.

When a patient enters the institution he will be photographed, be given a thorough physical examination, a careful ophthalmoscopic examination of the eye, as well as a careful analysis of the urine, followed by an exhaustive examination of the mental and sensory functions. This data is to be preserved and prepared on blanks arranged like those used in the best institutions of the kind in the country.

Sixteen hundred and sixteen steel cases have been ordered by the board for the preservation of these records, which will give a complete medical history of every patient from the time he enters the institution until he leaves.

It is stated by the Medical Superintendent that, owing to the insufficient supply of water during the summer, it is impossible to flush the closets on the upper floors for several hours daily. This is a condition of affairs that should be remedied.

All of which is respectfully submitted.

PEDLAR, Chairman Sub-Committee.

MEMORIALS.

The following memorials were presented by Senator Simpson, and ordered printed in the Journal:

FROM THE FRUIT-GROWERS OF CALIFORNIA.

SACRAMENTO, CAL., January 27, 1897.

To the Legislature of California:

GENTLEMEN: I beg to transmit herewith for your consideration the following memorial adopted by the fruit-growers in convention assembled, at Sacramento, November 8, 1895:

Governor Budd, in addressing the convention, said: "I hope in your discussions at this time you will consider what, if any, amendments ought to be made to the laws of this State for the advancement of the fruit industry. Believing that the fruit industry is the coming industry, I will cooperate with you and with the fruit-growers of the State. I ask your body, being better judges of the situation—better judges of the condition of the fruit-raisers of the State—to take up and discuss these subjects, in order that I may have the result of your combined wisdom in recommending a proper law to the Legislature for its enactment."

The subject was discussed and referred to a committee, who reported as follows:

Your committee on legislation respectfully submit the following report:

The laws in regard to the State Board of Horticulture, and the duties and powers of its officers, seem to us to need no change. The law covering the work of the quarantine officer has stood the tests of the courts, and should, therefore, not be endangered by amendments, unless these be clearly of the highest value.

The funds of the State Board of Horticulture are derived from legislation. We are of opinion that legislation to secure sufficient funds to carry on the work of the board efficiently and economically should be granted. The work of this board is of great advantage to the State in general, and especially to its valuable fruit interests, and to interests such as transportation, largely dependent upon it. The opportunities its conventions offer to bring all those in the fruit business together, to act in harmony on great questions affecting their business, and to improve the methods of fruit production and fruit marketing, fully justify, in our opinion, reasonable support from the taxpayers. All sound movements in a free country come from, and are supported by, the voluntary acts of the people. We believe that the State Board of Horticulture and the fruit-growers' conventions are the outgrowth of popular needs, and that the permanent success of the valuable work done, and to be done by the board, must grow out of local interest. Local gatherings and local societies are indispensable for a reliable interest in the general meetings. We therefore recommend the State Board of Horticulture to encourage the continuance and activity of existing local societies and the formation of new ones, so that every fruit section in this State shall have a growers' society in its midst. Reports, bulletins, and beneficial insects can be best distributed by local means of this kind.

ABROTT KINNEY,
A. D. PRYAL,
B. F. WALTON,
ALFRED HOLMAN,
Committee.

The report was received and adopted.
Respectfully submitted.

ELLWOOD COOPER, President.

Attest: B. M. LELONG, Secretary.
[SEAL.]

FROM THE FRUIT-GROWERS OF CALIFORNIA.

To the Legislature of California:

GENTLEMEN: I beg to transmit herewith the following memorial from the fruit-growers of California, in convention assembled, December 3, 1896, as follows:

Your memorialists, the fruit-growers of California, in convention assembled in the State Capitol, respectfully represent that, after having duly considered the needs of the horticultural interests of the State, they resolved to petition the Legislature:

First—For \$5,000 per annum, for the uses of the State Board of Horticulture in prosecuting its work.

Second—For \$5,000 per annum, to be used by the State Board of Horticulture in prosecuting the work of introducing parasitical insects from foreign countries.

Third—There are many investigations that should be made at once, and, if possible, remedies discovered, or the fruit-growers of the State will sustain great loss.

Respectfully submitted.

ELLWOOD COOPER, President.

Attest: B. M. LELONG, Secretary.

PETITIONS.

The following petitions were presented and read:

By Senator Stratton:

SAN FRANCISCO, January 27, 1897.

To the Legislature of the State of California:

We, the undersigned, trustees under the will of James Lick of the California School of Mechanical Arts, would respectfully represent to your honorable body that our school is in all its material aspects a public institution. The property is in the hands of trustees; but all its benefits accrue to the people of the State. The trustees receive no compensation, and the school is open to both sexes, from every part of the State, without discrimination of any kind, and without tuition fees.

At the same time, we have paid in taxes, for the year 1896, as follows:

On real estate mortgages	\$5,661 39
On premises occupied by school	690 40
	<hr/>
	\$6,351 79

Our income for the same period was \$26,185 26, the taxes being about 24 per cent of the income. You will readily see that this taxation is a serious clog upon the usefulness of the school. Our net income is all spent for the public good; our school relieves the public schools of just so many pupils; the nature of our institution and the instruction given in it is without political or religious bias, prejudice, or limitation. We teach our pupils the useful and practical arts of life, by which they can earn their own support, so that the benefits of the school accrue principally to people of very limited means.

It seems to us a short-sighted policy to cramp the power of so useful a school, and we pray your honorable body for any relief within your power.

All of which is respectfully submitted.

HORACE DAVIS,
A. S. HALLIDIE,
JOHN O. EARL,
JAMES SPIERS,
HORATIO STEBBINS,

Trustees of the California School of Mechanical Arts.

Petition referred to the Committee on Education and Public Morals.

By Senator Doty: A resolution of the Board of Supervisors of Sacramento County, petitioning that Senate Bill No. 182, which provides for the inspection of dairies and dairy cattle, be not passed.

By Senator Flint:

To the Senate of the Legislature of California:

We, the undersigned residents of Pacific Grove, in the County of Monterey, California, respectfully ask your honorable body to enact a Sabbath law that will prohibit all unnecessary secular labor and business, and all public sports and amusements inconsistent with the sanctity of the day, and that at the same time will secure the necessary weekly rest to all classes of weary toilers.

(Signed:) MRS. E. S. BEACH,
President of Ladies' Aid Society; and one hundred and thirteen others.

COMMUNICATION.

The following communication was received and presented to the Senate by the Secretary:

2001 HARTE STREET, BERKELEY, CAL., January 31, 1897.

HONORABLE FRANK J. BRANDON, *Secretary State Senate, Sacramento, Cal.*

DEAR SIR: I herewith acknowledge the receipt of an engrossed copy of the resolutions eulogizing my husband, the late Senator Noble Martin, which were adopted by the Senate on January the 6th.

Please convey to the honorable body of Senators, on behalf of myself and daughters, our grateful appreciation of this tribute to the memory of one whose motto was "Duty," and whose life was a noble example of devotion to it, whether in private or in public matters. We shall ever treasure the parchment as a visible token of that bond of brotherhood which unites noble characters and makes them friends, and in our loneliness and sorrow find a ray of comfort in the knowledge that Senator Martin's colleagues recognized and appreciated his worth.

Very truly yours,

MRS. NOBLE MARTIN.

REPORT OF SPECIAL COMMITTEE.

ON PROPOSED HOME FOR GIRLS.

SENATE CHAMBER, SACRAMENTO, February 2, 1897.

MR. PRESIDENT: Your special committee appointed to visit the buildings and site formerly occupied as a Home for the Feeble-Minded at Santa Clara, with a view of locating there the girls now confined in the female department of the State School at Whittier, beg leave to report that they have performed that duty, and, in connection with the Governor, have visited the said buildings and grounds, and thoroughly inspected the same, and beg leave to report as follows:

There are four distinct buildings, two of which can be used for residence purposes, and one of which can be used as an assembly hall and playroom, and the fourth as a laundry or workroom, and power-house.

One of the buildings is so constructed that it can easily be divided into two entirely separate and distinct departments, thus making, with one of the separated buildings, three distinct cottages for the use of the inmates.

It is hardly necessary to point out the advantages of being thus able to keep entirely distinct from each other the several classes of inmates, as the reform work is very much encouraged and facilitated by such segregation.

The buildings are now in a good state of repair, but will need flooring, papering, and painting, which will cost about three thousand dollars. The plumbing is in good shape, and although some of the rooms had been closed for a long time, there was no odor or dampness perceptible.

There are fifty-one acres of ground surrounding the buildings, with a fine grove of trees. The buildings are connected by a covered walk, so that, even in the most inclement weather, there will be no inconvenience in passing from one to the other. They are large and commodious, and when occupied by the Home for the Feeble-Minded the buildings afforded accommodation for one hundred and fifty children, with their necessary attendants. They could probably accommodate nearly two hundred girls at the present time.

The institution has an ample supply of water, but the city authorities have offered to furnish free of cost fifty gallons of water per capita per diem, if the present water supply should prove inadequate. This certainly would be ample for any possible demand of the institution.

The City of Santa Clara also offers to extend its sewerage system so as to connect with that of the institution, and to furnish, free of cost, electric lighting for the grounds; and, if it can be so arranged for the building, the latter also free, or at a very small cost.

The institution is located on elevated ground, some little distance from the City of Santa Clara. It commands a fine view of the valley, and is a beautiful and healthful spot. It has the advantage of lying some distance from the public road, and being a long way from any large city; the proximity of Los Angeles being one of the principal objections to the present location of the Girls' School at Whittier.

At small cost, the girls could raise poultry, do their own dairying and butter-making, and be largely self-sustaining. There is a further advantage, that the institution would have no connection, even in name, with any other reformatory. Experience has shown that where boys and girls are both inmates of the same institution, even when entirely separated from each other, yet the common name acts as a connecting link between them, and has the effect of demoralizing them, and retarding their progress toward the right when they leave the institution.

After having carefully examined this institution and the advantages which it presents for the purposes proposed, your committee would urgently recommend that at the earliest possible moment the girls at present committed to the State School at Whittier be transferred to the former Home for the Feeble-Minded at Santa Clara, and they feel confident that the result will be to the best interests of the children of the State, and to all concerned.

All of which is respectfully submitted.

FRANCK, Chairman Special Committee.

ON CONSTITUTIONAL AMENDMENTS—MAJORITY REPORT.

SENATE CHAMBER, SACRAMENTO, February 3, 1897.

MR. PRESIDENT: Your Committee on Constitutional Amendments, to whom was referred Senate Constitutional Amendment No. 9—To propose to the people of the State of California an amendment to and providing for the repeal of Sections 22 and 23 of Article XII of the Constitution, relative to a Board of Railroad Commissioners—have had the same under consideration, and respectfully report the same back, and recommend that it be adopted as amended.

Senator Braunhart has prepared a minority report, which is presented herewith.

BERT, Chairman.

ON CONSTITUTIONAL AMENDMENTS—MINORITY REPORT.

As a member of the Committee on Constitutional Amendments, I dissent from the conclusions of the majority, and recommend to the Senate that Constitutional Amendment No. 9 do not pass, for the following reasons:

The Railroad Commission was created to remove from the halls of the Legislature that ever notorious source of vexation, excitement, corruption, and scandal caused by personal attempts to curb the rapacity of the railroad corporations in the scale established by them for the transportation of freight and passengers. All efforts to fix, by statute law, a tariff which would be just and equitable alike to the people of the State and to the railroad corporations were, without exception, signal failures, owing to influences which, being too well known, do not need elaboration of detail at this time. It will be well to recollect that when the section was proposed for insertion in our present State Constitution, the expediency, as well as the necessity, of such a provision had been fully demonstrated at nearly every session of the Legislature, where all efforts to regulate the scale of prices for freight and passengers had either proven wholly or partially abortive to accomplish any beneficial exercise of the State control over railroad corporations. These repeated failures amply justified the assumption on the part of the delegates to the Constitutional Convention that it was unwise to endeavor to regulate the fares and freights by the terms of statute law. Putting aside all imputations upon the integrity of the lawmakers, the experience of many Legislatures has always failed to regulate fares and freights by the establishment of maximum and minimum rates. A fixed and inflexible rule as to rates must be laid down, if done by statute, fixing maximum or minimum rates, or both maximum and minimum rates, for the transportation of passengers and freight. We know that former Legislatures have shown the impossibility of regulating these matters in a manner that would be just and beneficial, either to the people or the railroad corporations, by any statute fixing these matters. The debates that took place in the Constitutional Convention indicate that, when this section came up for discussion, the plan of having a State Railroad Commission was on the theory that such a commission should at once be the agents of the people of the State, and of the railroad companies, for the establishment of rates which would be just and equitable to both parties alike, and that such commission should be equally bound to do justice to the people and to the railroad companies. It was further proclaimed that all questions of railroad tariff should be placed far from the maddening hurly-burly of a sixty-day Legislature, and where there would be a wise, calm, and just exercise of the power of control by the people of the State over these transportation companies.

I do not assume to be a prophet of evil—like Cassandra—who saw naught but evil flitting like a pestilential shadow over the ruins of a desolate land. But I warn you that if you promote by your actions the scheme to abolish this Railroad Commission, you will witness a biennial renewal of the many scenes of infamous memory—the blasting of the reputations of hundreds of public men, and the unholy breaking of the most solemn pledges.

Let me now invite the attention of the Senate to Judge McKenna's very recent decision, wherein it was held that the Railroad Commission had the power to fix rates after taking testimony thereon and investigating the matter fully, but that such rates must be reasonable. We take it that this decision must be considered, until it is reversed or modified by a higher tribunal, as binding on whatever body shall be vested by law with the power of regulating tariffs. If obligatory on the commission, the rule announced would have to be followed by the Legislature also, if it should be clothed with such power. In fact it was based upon the theory that the commission was, for the purpose of regulating rates, a legislative body; and the decision purports to be but the echo of those which had previously dealt with the regulation of railroad rates by the Legislature itself or by legislative agencies. How could it be possible for a Legislature, during the fitful fever of its life of sixty days, to examine into and determine the multitudinous mazes of intricacy that befog this abstruse question of just rates and fares, and at the same time deal deliberately upon the making of the necessary laws, which come up every two years?

As long as it stands unchanged and unmodified, the decision of Judge McKenna in conceding the right to the commissioners to regulate these matters, subject to the limitations above indicated, it is one of incalculable moment to the people of the State. Should, however, this Legislature, in its wisdom, see fit to recommend that the provision creating a railroad commission should be stricken from the Constitution,

not only would the advantages so stubbornly fought for and won after so many insuperable difficulties be entirely lost, but the result would be that the railroad corporations would have unrestricted license to establish such rates as the managers of these corporations would deem proper.

Safely ensconced behind Judge McKenna's decision, the people of the State have been doubly fortunate in electing Railroad Commissioners the majority of whom, for the first time since the organization of the commission, being gentlemen absolutely free from railroad influence, have attempted to deal justly toward the people of the State and justly toward the corporations. Political conventions in former years have not been over-nice in foisting upon their respective parties as nominees for Railroad Commissioners persons whose only claim to distinction was that they were the faithful creatures, the loyal servitors of the railroads. From this proscription list should be excepted the late Governor Stoneman and the Honorable W. W. Foote and the gentlemen who compose the present commission. The people are aroused to a pitch that will not brook paltering with the questions that so vitally concern their very existence. The defeat of men on account of their support of measures intended to benefit corporate interests utters a loud note of warning which those ambitious for public preferment cannot in the future afford to disregard.

Again, for the sake of argument, let us shut our eyes to past experience and admit that the Legislature would fix an equitable tariff. Such a tariff, if resisted by the railroads, would be very difficult, nay, impossible, of enforcement, by reason of the absence of an official body vested with power to defend the same in the courts.

The power of the corporation which would be exerted on the Legislature would be too strong for public safety. As it is now, it permeates everywhere. It reaches every interest in the community.

Let me add, in conclusion, that any action at this time such as that contemplated by the majority report of this committee might, and no doubt would, seriously affect the future of the litigation now pending in the United States Circuit Court. For the first time in the history of the State a foundation has been laid by the Railroad Commission and its attorneys for a thorough investigation in the courts of the business and affairs of the Southern Pacific Company and its leased lines. That investigation will undoubtedly throw a wholesome light upon the methods of the great railroad system which monopolizes the transportation of almost the entire State. It will undoubtedly show that those methods have so closed the preliminary hearing of the questions involved in the action now pending that Judge McKenna was forced to a conclusion as to the reasonableness of the rates fixed by the commission, which, at the hearing upon the merits, he, or whoever tries the case, will be obliged to alter. The company, which, by its affidavit-makers, swore itself to the verge of insolvency, will, I feel confident, when called to an actual accounting of its legitimate earnings and expenditures, be found in a sufficiently healthy financial condition to fully warrant the reduction of rates made by the commission. Hasty action at this time by the Legislature may circumvent all this. It may rob the people of their right to inquire, for the first time, into the real facts of the Southern Pacific Company's dealings with them. It would certainly cripple the efficiency of the commission until its fate was decided, and it would necessarily dampen the ardor of those who have fought for the commission's very existence, and sustained it, and who are now fighting for the commission's rights, and for a just showing of the railroad's business.

For the above reasons I respectfully submit that the proposed amendment should not pass.

Respectfully submitted,

BRAUNHART.

Senator Voorheis presented the following petition, which was ordered printed in the Journal:

SACRAMENTO CHAMBER OF COMMERCE, }
SACRAMENTO, CAL., February 3, 1897. }

To the honorable Senate of the State of California:

GENTLEMEN: The Sacramento Chamber of Commerce is composed of two hundred members, each being a taxpayer, and representing, as a whole, the business interests of this city.

We are instructed to petition your honorable body in favor of the passage of a constitutional amendment which shall prescribe that three fourths of a trial jury may convict in criminal cases.

In our own county, within the past few years, there have been frequent second and third trials which were caused by the non-concurrence of one or two jurors. The unnecessary expense has been about \$17,000 in the past few years; but the most important fact is that notorious criminals have escaped conviction.

There is before the Senate a constitutional amendment covering this important matter. [Senate Constitutional Amendment No. 11.]

We earnestly pray that you will adopt it, so that the people may have an opportunity to vote on it at the next general election.

Very respectfully,

JOSEPH STEFFENS, President.

J. O. COLEMAN, Secretary.

FRANK MILLER,

Chairman of Committee on County and Municipal Affairs.

HON. F. J. BRANDON, *Sacramento, Cal.:*

MY DEAR SIR: Pardon the delay, occasioned by my absence from the city, in acknowledging the beautiful memorial presented me by the State Senate of California.

Please convey to the Senate my heartfelt appreciation for the same.

I wish not only to thank the members of the Senate for the sentiment so kindly expressed in the resolution, but also for the design, which is so beautifully executed.

Very sincerely yours,

February 1, 1897.

MRS. SPENCER MILLARD,

PETITIONS.

The following petitions were presented, and ordered printed in the Journal:

HEADQUARTERS OF THE SOCIETY OF CALIFORNIA VOLUNTEERS, }
SAN FRANCISCO, CAL., February 2, 1897.

Resolution adopted by the members of the Society of California Volunteers, at their regular quarterly meeting, held Monday evening, January 25, 1897.

WHEREAS, The Society of California Volunteers, at their regular quarterly meeting, held January 25, 1897, learn of a claim preferred by Captain José Ramon Pico, for compensation for money said by him to have been expended in the service of the Government during the late Civil War; be it

Resolved, That from an intimate knowledge which several of our members have of the services performed by Captain Pico, the Society of California Volunteers, by resolution, denounce the claim as an imposition on the State Government, and ask that all evidence and vouchers in support of the same be closely scrutinized, in the belief that they will prove to be without proper foundation.

Official copy of resolution.

JOHN C. INNES, Recording Secretary.

Resolution adopted by the Council of Associated Industries.

Resolved, That we look upon the State Mining Bureau as one of the important factors in the advancement of the mining industry of California, and urge upon our Legislature the necessity of providing for its continued proper maintenance and support. The reports and bulletins are not only directly useful to the miners of the State, but also serve a good purpose in attracting the attention of people of other States and countries to the advantages to be gained in following the business of mining in California; and also

Resolved, That it is urged upon the Legislature to furnish a suitable appropriation to continue the State Mining Bureau upon its present separate basis, and, instead of merging it into a consolidation of State bureaus with entirely different objects, as has been proposed, to keep it intact in its present condition, as it is the only bureau devoted to the mining industry of California, an industry contributing \$25,000,000 annually in all its branches.

C. L. BLETHEN, Acting Secretary.

Senator Bert presented the following petition, which was ordered printed in the Journal:

SAN FRANCISCO, CAL., January 28, 1897.

To the honorable the Senate and Assembly of the State of California, in Legislature assembled:

Your petitioners respectfully represent that they are the trustees of the James Lick Public Baths, which have been erected under and according to the terms of James Lick's trust deed, reciting as follows:

"Eleventh—And in further trust, to expend the sum of \$150,000, under direction of H. M. Newhall, Ira P. Rankin, Dr. J. D. B. Stilman, and John O. Earl, and the survivors of them, in the erection and maintaining in the City of San Francisco of free baths; the site or sites therefor to be acquired and held by the persons last named, and the survivors of them, in trust, to forever maintain such baths for the free use of the public, under proper and reasonable regulations; said baths to be erected as soon as practicable to raise the money, after the money has been provided to erect said telescope."

That the said baths form one of the benefactions of James Lick to the general public, for the use of the people.

That said baths have been constructed upon the lands located in the City and County of San Francisco, State of California, purchased at a cost of \$30,000 for this land, and \$80,000 for the improvements, and have been in operation for over six years last past.

It has been found necessary to make a small charge for baths, to obtain means to operate them, and the court has sustained such action as authorized under terms of trust deed, "as a proper and reasonable regulation."

At the same time, no one who is found unable to pay this small charge is denied the use of the baths.

That the trustees serve without compensation.

That the value of the original bequest of \$150,000 has been well and truly used in the establishment and operation of said baths, an assertion which stands confirmed by the recent approval of the accounts by the Superior Court.

The taxes upon the bath properties up to this time aggregated \$9,065 69—a very serious drain upon the bequests.

The baths cannot be maintained from the income if the taxes are added.

Over one hundred thousand baths per annum have been enjoyed by the people during the six years the baths have been in operation.

That, owing *principally* to the expense of taxation upon the property, the expenses of operating the baths for five years exceeded the income from all sources in the sum of \$20,534 31, and at this time the depletion still continues, although in a ratio reduced to about \$2,201 per annum, a process which, if not arrested, would ultimately exhaust the bequest.

Wherefore, your petitioners respectfully ask that the properties of the said the James Lick public baths be exempted from assessment for taxation henceforth.

The excellent results which popular patronage of the said baths has constantly shown justify the hope of favorable action at your hands.

And your petitioners will ever pray, etc.

JOHN O. EARL,
JAMES K. WILSON,
H. E. MATHEWS,
Trustees.

MR. SUBSTITUTE FOR SENATE BILL No. 182.

An Act to provide for the inspection of dairies, factories of dairy products, and of dairy products as to their sanitary condition, and as to the health of dairy animals, and to prevent the sale of milk and the products of milk drawn from diseased animals to the people of this State, and to prevent the spread of infectious and contagious diseases common to dairy stock, and to appropriate money therefor.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. No person or persons, firms or corporations, shall sell, or offer for sale, or have in his or their possession for sale, any impure, unclean, or unwholesome milk, or any article of food manufactured therefrom, or of cream from the same, or milk drawn from cows either fifteen days before or within five days following parturition, or from cows fed on unwholesome food, or from cows affected with lumpy jaw, swelled neck, swelled legs, mud fever, ulcerated sores, or any other disease that causes the cow to become feverish, or from cows wherein feverishness exists.

SEC. 2. It shall be the duty of the State Dairy Bureau, by its general agent or assistant agents, from time to time, as it may be required, and at least once a year, to inspect all dairies and creameries in the State, and to carefully investigate the sanitary condition of the same. Said bureau shall also at the same time inspect all animals used for dairy purposes, for infectious and contagious diseases, and especially the disease known as tuberculosis, and after such inspection, if said agent or assistant agent believes, or has reason to believe, that any contagious or infectious disease exists among the stock inspected, he shall call a veterinary surgeon to make a thorough inspection and examination of the animal so believed to be affected. Said veterinary surgeon shall be an appointee of the State Dairy Bureau, as hereinafter provided. Such veterinary surgeon shall issue his certificate of examination under such rules as the State Dairy Bureau may enact and duly enter on the minutes of said bureau.

SEC. 3. The State Dairy Bureau shall, and they are hereby directed to, appoint as many assistant agents as in their judgment may be required to carry out the provisions of this Act, and to fix their compensation, not to exceed five dollars per day, while actually employed, exclusive of their actual expenses. Whenever competent assistant agents can be found in counties where such inspection is to be made, the State Dairy Bureau shall, by an order entered on the minutes, appoint such residents of such counties or districts; *provided*, that such assistant agents shall have had practical experience in the manufacture of dairy products, and the care and handling of dairy cows. The State Dairy Bureau shall also appoint such a number of veterinary surgeons as in their judgment may be required. No veterinary surgeon shall be appointed who has not attended for at least two years a recognized veterinary college, and who has not had at least two years' practical experience in that profession. Said bureau shall fix his compensation at not to exceed five dollars a day for each day actually employed, and his necessary expenses. Such appointments shall, if possible, be made from residents within the county or district where the work is to be done.

SEC. 4. All persons employed by the bureau to carry out the provisions of this Act shall render, under oath, to the State Dairy Bureau, on or before the last day of each month, a detailed statement of the number of days actually employed during the month; also, an itemized statement, under oath, of their actual expenses, and all items charged, exceeding the sum of one dollar, shall be accompanied by a receipted voucher, excepting railroad fares.

Whenever, in the judgment of the veterinary surgeon, it shall be necessary to slaughter any animal or animals, for the benefit of the public health, he shall certify his reasons therefor to the agent ordering such inspection. The agent shall notify the owner or owners of such animals of the decision of such veterinary surgeon, and shall order the animals specified by the veterinary surgeon as coming under the provision to be slaughtered immediately after appraisement; *provided*, that there are sufficient moneys in the fund created by this Act to pay for the same. The value of all cattle to be killed shall be appraised by the agent and a disinterested person selected by the owner of the condemned animal or animals, but if these two cannot agree upon the value of the animal, they shall select a third disinterested person, who, together with them, shall appraise the animal: such appraisal to be made just before the killing, and on a basis of health of such animal, determined by external examination. The appraised value of such animals shall not exceed the assessed value on the assessment books of the county where said animals were last assessed, and in no case shall compensation be allowed for animals slaughtered which have not been in the State six months or more next preceding their slaughter. Any animal or animals so slaughtered shall not be sold or removed, but shall be buried at the expense of the owner or person or persons in charge of such animal or animals.

SEC. 6. The State Dairy Bureau is hereby empowered and directed to prescribe rules and regulations for the carrying out of the requirements of this Act, and provide such forms and instructions as in their judgment will be necessary. All rules and regulations made by the bureau shall be entered in the minutes of their meetings, and copies shall be printed for those applying for the same.

SEC. 7. Whenever the agent of the bureau, or an assistant agent, inspects any dairy, creamery, or any other place where milk is produced, or where products are manufactured from the same, including cow barns, corrals, and hog yards, and utensils used, and finds the same not in sanitary condition, he shall direct in writing such changes to be made as will put the same in good sanitary condition. Such written directions shall be served on the owner or owners, or upon the person or persons having charge of the premises, giving the parties so notified thirty days to make such changes as directed. If such changes are not made within thirty days, the person or persons refusing or neglecting to make such changes shall be deemed guilty of a misdemeanor, and punished as hereinafter prescribed.

SEC. 8. It shall be the duty of the District Attorney, upon application of the agent of the Dairy Bureau, to attend to the prosecution, in the name of the State, of any action brought for the violation of any of the provisions of this Act within his district.

SEC. 9. Whenever any infectious or contagious disease affecting dairy stock shall be brought into or break out in this State, the State Dairy Bureau, by its agent and assistant agents, shall take prompt measures to suppress the same, and to prevent such disease from spreading, and for that purpose shall order farms and other places quarantined, so that no animal shall be removed from or brought to the places so quarantined. The agent or assistant agents shall prescribe such regulations as he or they may deem necessary to prevent the communication of the disease by infection or contagion from the place so quarantined. The agent or assistant agents of the bureau may call a veterinary surgeon to assist in investigation of the disease.

SEC. 10. Any person or persons, firms, or corporations refusing to comply with or conform to the provisions of this Act, when required to do so by the State Dairy Bureau, its agent or assistant agents, or who shall in any manner interfere with them in the performance of their duties under this Act, shall be guilty of a misdemeanor. All fines collected under provisions of this Act shall be paid to the agent of the State Dairy Bureau, and by said bureau paid into the state treasury, to be added to the fund appropriated for the enforcement of this Act.

SEC. 11. It shall be the duty of the State Dairy Bureau, now provided by law, by its general agent, to enforce the provisions of this Act. Such agent shall receive an additional salary of fifty dollars per month, payable out of the money appropriated for the enforcement of this Act.

SEC. 12. There is hereby appropriated, for the use of the State Dairy Bureau in carrying out the provisions of this Act, out of any money in the state treasury not otherwise appropriated, the sum of five thousand dollars (\$5,000) for the remainder of the forty-eighth fiscal year, and the sum of twenty thousand dollars (\$20,000) for the forty-ninth fiscal year, and twenty thousand dollars (\$20,000) for the fiftieth fiscal year. All salaries, fees, costs, and expenses, including compensation for cattle slaughtered under the provisions of this Act, shall be drawn from the money so appropriated, and the State Controller shall draw his warrants on the state treasury in favor of the person or persons entitled to the same.

THE SAN FRANCISCO DELEGATION.

SENATE CHAMBER, SACRAMENTO, February 10, 1897.

MR. PRESIDENT: Your Committee, the San Francisco Delegation, to whom was referred Senate Bill No. 606—An Act to amend Section 163 of an Act entitled "An Act to establish a uniform system of county and township governments," approved March 14, 1883, relating to salaries of county officers in counties of the first class, offered as an amendment to Senate Bill No 136, by Senator Brauhart—have had the same under consideration, and respectfully report the same back, and recommend that it do not pass.

NOES—Senators Brauhart, Doty, Langford, La Rue, Seawell, and Stratton—6.

EXPLANATION.

SACRAMENTO, February 10, 1897.

MR. PRESIDENT: As I entered the Senate chamber just a moment too late to vote on the proposed amendment last disposed of, I desire to have the Journal show that I intended to speak and vote in favor of sustaining the action of the San Francisco Delegation on said proposed amendment, and further to explain the reason for my absence.

The Senate was in session until about twelve o'clock and forty-five minutes. Immediately upon the announcement by the Chair that the Senate was at recess, the San Francisco Delegation met for the purpose of considering the proposed amendments, and remained in session until nearly two o'clock, the time fixed for the Senate to reconvene. Thereupon I left the Senate chamber for the purpose of procuring luncheon, but before doing so requested Senator Smith, the Chairman of the Committee on County Government and Township Organization, having the matter in charge, to pass the consideration of the proposed amendments until I should return. He readily consented so to do, and I thereupon left the Senate chamber, and was much surprised and equally chagrined to learn upon my return that the matter had been considered and voted on, and the decision already announced.

I do not desire in any manner to reflect or place blame upon Senator Smith, as I am assured by him that the amendments in question were taken up by the Senate in his absence, and at a time when he did not understand that I was not in my seat.

In conclusion, I desire to reiterate that I had prepared to speak, and intended to vote, in favor of retaining the law as at present, and against the proposed amendments, and regret that my unavoidable absence from the Senate chamber should have deprived me of that privilege.

EUGENE F. BERT.

MOTION.

On motion of Senator Dickinson, Senate Bill No. 422 was taken up for the purpose of further amendment.

SECOND READING OF BILL.

Senate Bill No. 422—An Act to amend Sections 1895, 1897, 1898, 1900, 1912, 1913, 1918, 1919, 1924, 1936, 1945, 1962, 1965, 1966, 1970, 1974, 1976, 1981, 1982, 1984, 1986, 1990, 2006, 2007, 2018, 2022, 2076, 2084, 2094, 2099, and 2105 of the Political Code, and to repeal Section 2101 thereof, and to add two new sections thereto, to be known as Sections 2008 and 2009, all relating to the National Guard of California.

2. If an officer, for either of the above reasons, desires to be placed upon the retired list, he shall make application to his brigade commander to appoint a board of surgeons, who shall examine him as to his disability, and if such disability has not been incurred by reason of any dereliction, they shall, if they deem proper, recommend that his application be granted; and upon approval of such application by the brigade commander and the commander-in-chief, the Adjutant-General shall issue orders retiring such officer.

3. Any commissioned officer who shall have served as such in the National Guard of this State for a continuous period of eight years, or for a period not continuous of ten years, may, upon his own application, be placed upon the retired list, and withdrawn from active service and command with the rank held by him at the time such application is made; and any commissioned officer who shall have, at any time heretofore, served as such in the militia or National Guard of this State for a continuous period of eight years, shall, upon his own application, and due proof of such service, be placed upon the retired list with the rank held by him at the time of the examination of his commission. Upon applications as above provided being duly made and approved, the commander-in-chief shall cause orders to be issued retiring the officer who makes application therefor, in accordance with the provisions of this section; *provided, however*, that nothing herein contained shall be construed to permit the placing upon the retired list of any officer who shall have been dishonorably dismissed the service.

4. The officers on the retired list shall only be subject to detail for duty by orders from the commander-in-chief, and he shall cause to be issued such orders as he may deem necessary, detailing them for duty upon boards of officers for military purposes, courts-martial, and courts of inquiry, and for such other military duties as, in his judgment, may be advisable. When, however, officers on the retired list are detailed for active duties other than upon boards of officers, courts-martial, and courts of inquiry, they shall only be entitled to the rank which properly belongs to the office the duties of which they are detailed to perform. When the duty ends, or the detail is canceled, the officer shall again return to the retired list with his former retired rank. A roster of all officers on the retired list shall be kept in the Adjutant-General's office, division headquarters, and at the brigade headquarters.

5. Officers on the retired list shall on all occasions of duty, and all occasions of ceremony, take rank next to officers of like rank upon the active list.

THE CHAMBER OF COMMERCE OF SAN FRANCISCO, }
SAN FRANCISCO, February 9, 1897. }

MEMORIAL.

To the honorable Legislature of California:

GENTLEMEN: The grievous burdens placed on American shipping are known to all interested therein, directly or indirectly. San Francisco is avoided by ship-owners as a registry port, and ships owned here are forced to register at other Pacific coast ports, to our detriment. Among the most oppressive legalized exactions is compulsory half pilotage. We respectfully but urgently entreat the Legislature of California to abolish this unjust and needless tax on all ships under the American flag. Thereby you will encourage the owning and local registry of shipping at San Francisco, to the great benefit of all our people, and especially of all who depend upon cheap water transportation. The Chamber of Commerce of San Francisco presents this request to the law-making power of our State, not alone on behalf of the ship-owner, but for the benefit of our commonwealth, cheap transportation being one of the controlling factors in the prosperity of our people.

Confident in your favorable reception of our petition, we subscribe ourselves,

Your fellow citizens,

THE CHAMBER OF COMMERCE OF SAN FRANCISCO.

Verdicts in Jury Criminal Cases.

Resolved, That the Chamber of Commerce of San Francisco favors the presentation to the voters of California of an amendment to the Constitution of the State, introduced in the present Legislature by Senator Voorheis, whereby three fourths of a jury may find a verdict in criminal as well as now provided for in civil actions.

Trans-Mississippi Exposition.

Resolved, That the Chamber of Commerce of San Francisco respectfully requests the honorable California Legislature, now in session, to appropriate such an amount as may be advisable to have our State properly represented at the Trans-Mississippi Exposition.

Resolved, That copies of this resolution be forwarded to the President of the California State Senate, and to the Speaker of the Assembly.

Sacramento River Improvement—Resolution.

The Chamber of Commerce of San Francisco respectfully urges upon the California Legislature the enactment of Senate Bill No. 298, for the improvement of the Sacramento River, in the interest of cheap transportation for the residents of that great and fertile valley.

HUGH CRAIG, President.

Attest: WILLIAM L. MERRY, Secretary.

Also:

SAN FRANCISCO FRUIT EXCHANGE, }
SAN FRANCISCO, February 8, 1897. }

DEAR SIR: At a meeting of the Board of Directors of the San Francisco Fruit Exchange held this day, the following resolutions were unanimously adopted:

WHEREAS, There being now before the Legislature of this State an Act providing for the appointment of an auditing board to the Commissioner of Public Works, authorizing and directing him and them to perform certain duties relating to drainage; to purchase machinery, tools, dredgers, and appliances therefor; to improve and rectify water channels; to erect banks and levees necessary and incident to said drainage; to condemn land and property for purposes aforesaid; making certain acts a felony, and making an appropriation of money for the purposes of this Act; and

WHEREAS, We believe that not only the localities directly interested, but the entire State will be benefited by this Act;

Resolved, That we heartily indorse the measure, and earnestly urge our representatives in Legislature assembled to use their every effort to make this Act a law.

For the Board of Directors:

HERMAN BENDEL, President.
T. S. TAYLOR, Secretary.

SPECIAL ORDER PASSED.

Senator Stratton moved that the special order set for this hour, the consideration of Senate Bill No. 136, be temporarily passed.

PETITIONS.

Senator Bulla presented the following petition, and the same was ordered printed in the Journal:

To the honorable the Senate and Assembly of the State of California, and to the Committee on Labor and Capital of the Assembly, and the Committee on Public Health and Quarantine of the Senate:

The undersigned taxpayers and citizens of the City of Los Angeles, engaged in the business of bakers therein, most respectfully and earnestly protest against the passage of Senate Bills Nos. 26 and 69, and Assembly Bills Nos. 259 and 279, or any similar legislation; and, in support of their protest, they respectfully show:

First—That the legislation proposed in said bills is special class legislation.

Second—That such legislation unnecessarily and arbitrarily interferes with the right of persons engaged in the business therein referred to, to carry on such business in a legitimate and proper manner, and virtually places the employers at the mercy of their employés.

Third—That such legislation would interfere with and abridge the right of the employer and employé of a specially designated class to enter into contracts.

Fourth—That, under the guise of regulation, it would create monopoly, and interfere with the right of the citizens to engage in and properly carry on a legitimate and useful business.

THE MEEK BAKING CO.,
LEWIS EHINGER,
GEO. H. BARNES,
A. H. EDWARDS,
And twelve others.

By Senator Androus:

To the honorable S. N. ANDROUS and honorable Mr. VOSBURG, members of the Legislature from Los Angeles County:

SECTION 1. It shall be the duty of every owner or owners of agricultural lands through which runs or which border upon a natural channel, not navigable, subject to injurious overflow of water, to cut or remove, or burn all trees, brush, or other vegetable growth, found growing in, or on the banks sloping toward the channel, and to plow up the vegetable growth once a year, when required to do so by the Board of Supervisors of the county in which the land is situate; and in case any land borders upon any such channel, and such channel forms a boundary line of such land, it shall be the duty of the owner or owners thereof to do and perform the said work in and to the middle and center line of such channel.

SEC. 4. This Act shall take effect immediately.

REPORT OF SPECIAL COMMITTEE OF ONE.

SENATE CHAMBER, SACRAMENTO, February 11, 1897.

MR. PRESIDENT: Your special committee of one, to whom was referred Senate Bill No. 93, with instructions to amend, respectfully reports the same back, amended as per instructions.

DICKINSON, Committee.

REPORT OF SPECIAL COMMITTEE—(OUT OF ORDER).

The following report was received and read:

SENATE CHAMBER, SACRAMENTO, February 10, 1897.

MR. PRESIDENT: Your committee, who was sent to investigate the condition and wants of the Preston School, at Ione, beg leave to report as follows:

We arrived at the place on Saturday evening, and were shown the tract of land adjoining the property of the State, and found it a very desirable and most reasonable purchase, and were unanimously in favor of its procurement. It consists of about two hundred and forty acres, with some improvements, and is bonded for \$5,000.

We were then shown the property of the school, including the principal buildings, power-house, and out buildings, and were very favorably impressed by the appearance of things, the efficient management, economical as well as otherwise. The boys appear well trained and obedient, and it is the sense of this committee that much good will result from their stay in this institution.

We find that there are many improvements necessary, and, although we would gladly recommend all that the management desires, we will give a summary of that only which is actually necessary. There is not room enough for dormitories and assembly purposes, nor for dining purposes. The committee recommend the following improvements as actually necessary:

Dining-room, assembly-room, etc.	\$23,000
Furnishing same	1,000
One double cottage	15,000
Furnishing same	1,750
Ice and refrigerator plant	2,500
Printing outfit	500
Equipment for blacksmith shop	800
Equipment for carpenter shop	500
Enlarging cow barn	500
Fencing	1,500
Forcing houses	600
Walk, water pipe, etc.	1,000
Twenty cows	500
Total	\$49,150

While we see the necessity of a hospital building in case of an epidemic, we think the location and surroundings so favorable that at this time it can be dispensed with; also, the settling reservoir, which would be very desirable, would finances permit, can be left for the future. The printing outfit has been placed by the committee at only \$500, for the reason that we think it possible to transfer some of the State property not now in use to this institution; the same view we have taken in relation to the wants of the library.

We also append herewith the expenses of this committee, viz.:

Four fares to and from Ione, at \$4 10	\$16 40
Hotel and incidental expenses	3 60
	<hr/> \$20 00

Respectfully submitted.

GLEAVES.
TONER.
LUCHSINGER.
DOTY.

That portion of the foregoing report setting forth the expenses of the committee was referred to the Committee on Attachés, Contingent Expenses, and Mileage.

To Mrs. Mary Wells, Dr.:

To washing sixteen large roller towels each day of the session, from January 4th to January 31st, inclusive, \$12 50.

Yours respectfully,

THE COUNCIL OF ASSOCIATED INDUSTRIES OF CALIFORNIA, }
SAN FRANCISCO, February 5, 1897. }

J. J. CRAWFORD, Esq., *State Mineralogist*:

DEAR SIR: At the last meeting of the Council of Associated Industries of California, the following resolutions were adopted and copies ordered sent to the Secretary of the Senate and the Speaker of the Assembly:

Resolved, That we look upon the State Mining Bureau as one of the important factors in the advancement of the mining industry of California, and urge upon our Legislature the necessity of providing for its continued proper maintenance and support. The reports and bulletins are not only directly useful to the miners of the State, but also serve a good purpose in attracting the attention of people of other States and countries to the advantages to be gained in following the business of mining in California; and also

Resolved, That it is urged upon the Legislature to furnish a suitable appropriation to continue the State Mining Bureau upon its present separate basis, and, instead of merging it into a consolidation of State bureaus with entirely different objects, as has been proposed, to keep it intact in its present condition, as it is the only bureau devoted to the mining industry of California—an industry contributing \$25,000,000 annually in all its branches.

Yours very truly,

COUNCIL OF ASSOCIATED INDUSTRIES OF CALIFORNIA.
By C. L. BLETHEN, Acting Secretary.

Also:

THE LOS ANGELES CHAMBER OF COMMERCE, }

Resolutions passed at the meeting of the board of directors, held Wednesday, February 3, 1897:

Resolved, That in view of all that has been accomplished by the State Mining Bureau in the past, the benefits which have followed the examinations and published reports on our oil territory by Deputy W. L. Watts and the great good the bureau is capable of in the future, as the only institution maintained in the interest of the miners of California, this chamber is in full accord with all of its work, and considers the proposed transfer to the State University at Berkeley to be prejudicial to the best interests of the mining industry in this State, and requests continued support on the present basis.

Resolved, That copies of this resolution be sent at once to our State representatives at Sacramento, with a request for immediate action.

I hereby certify that the above is a true and correct copy of the resolutions passed on the above date.

C. D. WILLARD, Secretary.

institution; that the Legislature be requested to make a suitable appropriation for the support of the said bureau and the continuance of its work.

That copies of this resolution be forwarded at once to Mr. J. J. Crawford, the State Mineralogist, to the Executive at Sacramento, and to the representatives of Los Angeles city and county in the State Legislature.

ON PUBLIC BUILDINGS OTHER THAN PRISON BUILDINGS.

SENATE CHAMBER, SACRAMENTO, February 3, 1897.

MR. PRESIDENT: Your Sub-Committee on Public Buildings other than Prison Buildings that was appointed to visit the State Asylum for the Insane at Ukiah, the Home for the Feeble-Minded at Glen Ellen, the Veterans' Home at Yountville, and the Insane Asylum at Napa, beg leave to report that they have performed their duty.

At Ukiah they found a very carefully managed institution, which was cleanly and most creditably conducted. The patients seemed to be well cared for and receive proper attention and care.

The number in the institution at the time of the last biennial report was 355. The number on June 30, 1895, was 296, so that the number has increased during the last fiscal year 59. Figuring on this basis, we do not see the need for any large increase in the capacity of the asylum at present.

The main building is in an unfinished condition and unsightly, and some measures should be taken to complete it. For this purpose an appropriation of \$110,000 is asked for the administration building. We believe, however, it would be a wiser and more economical plan to have the inmates engage in making bricks, as is done in other institutions of the State at a small cost, and then to erect a tower or other structure in front to preserve the symmetry of the present building, but not to cost more than \$20,000. As more room is needed, cottages can be built on the grounds, which are ample for such purposes, and the institution, arranged on the most modern and scientific principle of treating the diseased, will then have been constructed at a comparatively small cost. As the number of patients demand, more cottages can be built, in this way affording ample accommodation for patients at a comparatively small cost.

Cottages to contain fifty patients with their necessary attendants should not cost, if the brick are made on the grounds by the inmates, to exceed \$7,000.

An ice plant and cooling-room is needed, and we recommend an appropriation of \$3,000, which is asked for, for that purpose. An increased supply of water is one of the urgent needs of the institution, to protect it from fire especially. An electric-light plant is also needed, and an appropriation of \$15,000 is asked for that purpose and lighting, and we recommend that this appropriation be allowed.

We note with special pleasure that the recommendations of the committee of two years ago with regard to sewerage, draining of the marsh, and so forth, have been carried out, and the sanitary condition of the institution greatly improved thereby. One cottage, on the plan recommended above, would furnish ample accommodation for all the patients that the institution will receive before the next meeting of the Legislature. There is considerable room in the basements of the institution, which should be utilized for dining-rooms and other purposes, as is done in some of the other institutions of the State. We note with pleasure that the per capita cost of the institution has been decreased, and that there is an economical purpose evinced on the part of the management of the institution to cut down expenses in every direction, so far as is consistent with the proper management of the asylum.

The amount asked for maintenance for the next two years is based on five hundred patients, an increase of one hundred and forty-five over the number now in the institution. This is a larger number than have been received in the same period in the past, but is probably not excessive, and we therefore recommend the appropriation of \$160,052 50 for maintenance for the two years ending June 30, 1899.

In connection with this asylum, we beg to call attention to the suggestive fact that, of the one hundred and eighty-two patients admitted between July 1, 1894, and July 1,

1895, seventy were natives of the United States, and one hundred and two foreign born, the nativity of ten being unknown, and of the natives only twenty-one were Californians. In other words, California furnished less than twelve per cent of the inmates of this institution, and the United States a little over thirty-eight per cent of the inmates. Certainly these facts and figures are worthy of careful consideration by the members of the Legislature, especially as, for the year ending June 30, 1896, out of one hundred and ninety-two patients admitted, ninety-five were foreigners and eighty-seven Americans, showing that the foreign population still furnished more than one half of the inmates of the asylum.

From Ukiah your committee proceeded to the Home for the Care and Training of Feeble-Minded Children at Glen Ellen, and we found this institution in a good deal better condition than it was two years ago, the improvements being particularly noticeable in the lower grade ward. We found the worst patients still confined in the top floor of the main building, and we urgently recommend that four cottages be immediately erected, at a cost not to exceed the sum of \$2,000 each, for the care of this class of patients. These cottages should be one story and surrounded by a large yard, with a fence that will prevent the inmates from escaping. This would enable the children to spend much of the time during fair weather in the open air, which would be a great improvement, for if they are left where they are now, it may any day result in a terrible calamity should a fire break out in the institution, as they are all utterly helpless, and would have to be carried down stairs and out of the building singly by the attendants. No time should be lost by the State in placing these children out of the danger of such a disaster. Consumption is the principal disease which affects this class of inmates, and as it is now admitted and recognized as a contagious disease by the best physicians and medical authorities, we suggest the erection, as requested by the Board of Trustees, of two cottages for consumptives, one for boys and the other for girls, at a cost not to exceed \$2,500 each.

A new power-house with electric-light plant, equipment for a large laundry, etc., can be erected at a cost of about \$20,000; \$10,000 is needed for the electric-light plant itself and changes in the heating apparatus. These improvements are urgently needed, as gas made of gasoline is at present used in the asylum, which is extremely dangerous; we therefore recommend an appropriation of \$30,000 for this purpose.

An appropriation of \$1,500 for fencing we think would be sufficient, although \$2,500 is asked for that purpose; \$1,000 is also asked for the equipment of the farm, which appropriation we recommend.

By an appropriation of \$15,000 for a reservoir, water-power can be secured, saving an annual expenditure of \$3,600 for fuel. As this appropriation will add greatly to the fire protection as well as affording ample motive power for the machinery, we would recommend the appropriation of \$12,000 for this purpose.

No institution in the State has made greater improvements in the past year than the Veterans' Home at Yountville. Several new buildings have been erected and the accommodations for the inmates increased nearly two hundred. Light and airy dormitories have been erected, and the sanitary condition of the institution immensely improved. Two years ago in this latter respect this institution was the worst in the State; to-day it compares favorably with the best. Over seven hundred veterans can be accommodated there at present, and at a trifling cost the capacity could be increased to eight hundred. The site is a beautiful one, and the old soldiers seem to thoroughly enjoy their home. Female nurses have been substituted for male; the change has proved both beneficial and satisfactory.

From the Veterans' Home we proceeded to the State Asylum for the Insane at Napa. This institution, which is one of the best managed in the State, and is a model in many respects, we found in the usual good condition.

A number of improvements had been made during the past year at a remarkably low cost. Over 900,000 brick were manufactured, at a cost of \$2.01 per thousand. A carpenter shop, which would probably have cost \$4,000 to \$5,000 to build, was erected at a cost of \$392; a dryhouse, at a cost of \$1,162, about one third of what its cost would have been under the contract system. Other buildings at the same relatively low cost have been erected during the past year, to the credit of the management, which has set an example in this respect to the other institutions of the State.

The asylum asks an appropriation of \$155,000 for the erection of a dam, by means of which a lake covering an area of about twenty-five acres could be created. This would form a storage reservoir for some three hundred million gallons of water, which even during the driest season would furnish the institution with an ample supply of water and even a water power. It appears that at present during the dry season, the closets on the upper floor cannot be flushed for several hours daily. This is an evil which should be remedied, and although the appropriation asked for is large, still if the finances of the State will admit, we believe that it would be wise to make it, as an ample supply of water is an absolute necessity in an institution of this character. In connection with the Napa asylum, we beg leave to call attention to the fact that the institution asked of the last Legislature \$400,000 to maintain 1,300 patients for two years, while, as a matter of fact, it has maintained 1,443 patients and returned \$32,000 out of the appropriation back to the State. At the rate asked for the maintenance of 1,300 patients, this represents a saving to the State out of this appropriation of over \$50,000, which shows that the institution has been very carefully and economically administered.

The saving to the State in the buildings, which have been erected at over one third to one fourth of the usual cost for such structures, has nearly equaled in the last two

years the amount asked for the dam, and we are assured by the trustees and resident physician that with this reservoir and the opportunities for irrigation, which it would afford, the per capita will be reduced several cents, as it would allow the raising of an increased number of vegetables, which would enable the institution to use less meat, a benefit from a medical as well as a financial point of view. It would also permit the reduction of fuel, which amounts to about \$5,000 a year, and a saving from various other sources would be probably \$10,000 per annum, which would make a considerable reduction in the per capita of the asylum.

As at Ukiah, the number of foreigners in the Napa asylum is out of proportion to their ratio to the population of the State. For the year ending June 30, 1895, there were received at Napa asylum one hundred and twenty-one foreigners and one hundred and eight natives of this country. For the year ending June 30, 1896, the number was exactly equal, one hundred and twenty Americans and one hundred and twenty foreigners, thus showing that the foreign population of our State contributes a very large number of the inmates of our asylums.

In closing this report, it is gratifying to the committee to be able to state that the public institutions herein referred to show marked improvement during the past two years, both in their better condition and their reduced expenses, and we are free to state that we believe that never before have the same number of persons been cared for as well for the same amount of money.

The cost of the visit of the committee has been less than \$200. If their recommendations are carried out, there will be a saving to the State of over \$100,000, without, we believe, in any way impairing the efficiency of any of the public institutions.

Our expenses, comparing this year's visit with that of two years ago, show that the legislative visits have the effect of stimulating the various managements to economy and improvement, and we believe that if the public will carefully investigate what is accomplished by these trips, they will recognize that they are both economical and beneficial to the State.

DENISON, Chairman of Sub-Committee.

ON PUBLIC BUILDINGS OTHER THAN PRISON BUILDINGS, FINANCE, AND COMMERCE, ETC.

SENATE CHAMBER, SACRAMENTO, February 3, 1897.

MR. PRESIDENT: Your joint Sub-Committee on Public Buildings other than Prison Buildings, Finance, Hospitals, and Commerce, Harbors, Rivers, and Coast Defenses, appointed to visit the Insane Asylum at Stockton, the State School at Whittier, the proposed sites for the Normal School in and adjacent to San Diego, the harbor improvements at San Diego, the Southern California Insane Asylum at Highland, and the State Normal School at Los Angeles, beg leave to report that they have performed their duty, and report as follows:

At Stockton, the committee visited the insane asylum and carefully inspected the buildings and grounds. They found everything cleanly and in good condition, and the patients well cared for. They noticed, however, that the asylum had two distinct power-houses with their accompanying plants. This seems to us to be an unnecessary expense, as the same results could undoubtedly be accomplished by using one power-house, making the necessary connections from it with the machinery, etc., that are now connected with both plants.

An appropriation is also asked to sink a well for gas. The sum asked, in our opinion, should be granted, inasmuch as it would cause considerable saving in the way of fuel.

The appropriation asked for the erection and furnishing of a residence for the medical superintendent we see no pressing need for, and recommend that this appropriation be not granted.

At Whittier an unfortunate discordance prevails among the members of the Board of Trustees. We recommend that the Superintendent of this institution be given power to employ and discharge employés, by consent of the Board of Trustees, as in other public institutions.

The institution needs an enlarged trade plant, so that all the boys may be put to work and kept industriously learning some useful trade.

In view of the fact that the girls will probably be removed to the buildings formerly occupied by the Home for the Feeble-Minded at Santa Clara, other buildings and additional accommodations for more pupils seem unnecessary at Whittier. We recommend that one of the buildings now used by the girls be set apart and used as a hospital. For the equipment of a trade building, \$15,000 is asked, as the machinery at the school now is much of it antiquated and of but little use in teaching trades on modern plans, and such as there is not sufficient. We believe that an appropriation should be given sufficient to meet necessary improvements.

Twenty-five hundred dollars is asked for the replacing of furniture, etc.

Two thousand dollars is also asked for the library, which consists at present entirely of books donated by friends of the institution; many of them are entirely unfitted for the children, and this important branch of education is badly crippled by the need of more and better literature. The appropriation asked for, wisely expended, would undoubtedly be of immense benefit to all of the pupils.

Six hundred dollars is asked for new instruments for the band. Five thousand dollars is asked for an additional water supply, which seems to be badly needed for irrigation and other purposes.

An additional appropriation, for additional lands, of \$24,000 is asked. While additional land is needed, your committee does not advise the purchase of additional land at this time and at the prices now asked.

We would recommend that the buildings now used for girls be devoted in future to the care of the younger and less criminal classes of the inmates, so that they can be kept entirely separate from the older and worse elements in the school.

The introduction of sloyd work for the younger children would be highly beneficial, and some means should be devised to keep even the youngest children actively engaged for a few hours daily. The present sewing-room, laundry, and trade building used by the girls will afford ample accommodation for the employing of these children.

From Whittier the committee visited San Diego, where they were shown sites for a normal school: One at Pacific Beach, near the city, which had some buildings that were offered with the site to the State free of cost; another site, known as University Heights, was also shown; there is a foundation there for a building far in excess of the possible needs of the normal school. We therefore would consider this site as entirely out of the question. Of the two places visited, therefore, the Pacific Beach location is a better one, but we are of the opinion that there is no need for another normal school at present, in view of the general desire to keep the expenses of the State as low as possible.

The proposed wharf on the State tide lands is an improvement that would undoubtedly be extremely beneficial and profitable, as there is a prospect in the near future of a large increase in the foreign commerce of this port.

At the insane asylum at Highlands, the committee found the institution well managed, cleanly, and in these respects in every way satisfactory and creditable to the trustees and superintendent.

There are eight bills asking for appropriations for this institution before the committee. One is for the general maintenance of the asylum, and as the per capita has been largely reduced during the last year, and the management shows their desire and tendency to reduce expenses to a minimum, there seems no good reason why the appropriation asked for should not be granted.

There is also a deficiency appropriation bill for the forty-eighth fiscal year, covering the deficiency allowed by the Board of Examiners, amounting to \$20,000. This is due to the large and rapid increase in the number of inmates, as the asylum has a larger area and population to draw from than any of the other asylums of the State, and its inmates are increasing more rapidly.

Unlike similar institutions of the State, this asylum receives more Americans than foreigners. During the last two years there were admitted three hundred and eight Americans, one hundred and sixty-seven foreigners, and thirty-seven patients whose nationality was unknown.

The treatment of the patients, and the care with which they are handled, seems to be all that could be desired, and a careful report of each inmate is made from the time of their entrance into the asylum until they leave.

The sum of \$100,000 is asked for the erection of a central building or administration building, in connection with the asylum. While the present condition of the institution is crowded, and while there is every prospect that the number of inmates will be largely increased during the next two years, we do not believe that this building is needed at present, as additional accommodations can be obtained by the erection of a community dining-room and dormitory building, at a cost of \$13,500, as asked for by Senate Bill No. 85, and the erection of one or more cottages, as has already been suggested with some of the other asylums of the State.

Thirty thousand dollars is asked for the purpose of erecting storm drains, but after having carefully investigated the matter, the committee believe that no immediate necessity exists for this appropriation. It was asked for two years ago, but not granted, and the conditions do not seem to have materially altered in that time.

An appropriation is asked for a dairy farm and appurtenances in the sum of \$5,000. We think that could be cut down to \$2,900 by utilizing the help of the inmates. In this connection we would suggest that the inmates be employed during the next two years at making brick. If this is done, by the next session of the Legislature from one to two million brick will be on hand, and any additional buildings then needed can then be constructed at a large saving to the State. We believe that in all State institutions it should be the duty of the management to employ, as far as possible, the labor of the inmates for their own support and the improvement of their special institutions. We are not in favor of having inmates compete with self-supporting labor, but we do believe, in the interest of the taxpayer, of the inmates themselves, and of the general welfare of the State and community, that it is advantageous to employ as much of the labor which the State is supporting for its own work as possible.

At Los Angeles, the committee visited the State Normal School, and found it to be in good condition. The State owns a very fine property there. The school seems to be well managed. An appropriation of \$5,000 is asked for several improvements which seem to be needed, and for which we consider the estimate extremely economical. We therefore recommend that it be allowed.

In closing this report, the committee beg leave to call attention to the fact that as a result of this trip and the careful examination of the needs of the several institutions, they have reduced the appropriations asked for nearly half a million dollars. Whereas the cost to the State has been less than \$900.

This, of course, only represents the saving in reduced appropriations, but the experience of two years ago has shown that the investigation and recommendations of visit-

ing committees, when carefully and conscientiously made, invariably result in the improvement of management and conduct of the various inspected institutions.

All of which is respectfully submitted.

Senate Bill No. 69—An Act to add to the Political Code of the State of California two new sections, to be numbered Sections 3246½ and 3247½, respectively, regulating the hours of labor of persons employed in bakeries.

Bill read third time.

The following report of the Committee on Rules and Revision was received and read:

SENATE CHAMBER, SACRAMENTO, February 15, 1897.

MR. PRESIDENT: Your Committee on Rules and Revision have had under consideration Senate Bill No. 69.

These sections follow Sections 3246 and 3247, which relate to conductors and drivers of street cars, and attempt to classify laborers and to regulate the hours of labor and the compensation of each class. They do not pretend to deal with laborers as a genus, but only to certain species of laborers.

It is a special law, and falls within the prohibition of Section 25, Article IV, of the Constitution. (Ex parte Westerfield, 55 Cal. 550; People vs. Central Pacific R. R., 83 Cal. 411; Dougherty vs. Austin, 94 Cal. 622.)

A law is general when it applies equally to all persons embraced in a class, founded upon some natural, or intrinsic, or constitutional distinction; it is not general if it confers particular privilege, or imposes peculiar disabilities, or burdensome conditions in the exercise of a common right, upon persons arbitrarily selected from the general body of those who stand in precisely the same relation to the subjects of the law. (Pasadena vs. Stimson, 91 Cal. 238.)

Senate Bill No. 69 arbitrarily selects laborers employed in certain kinds of employment, and grants them rights and remedies not granted to all laborers, and it imposes burdensome conditions upon one species of employers not imposed on all employers of labor.

As a general law, it will not stand the test as laid down in Bloss vs. Lewis, 109 Cal. 493; Ex parte Kubock, 85 Cal. 274.

The bill is correct in text and reference, and the object cannot be obtained under any law now in force, but your committee is of the opinion that said bill is unconstitutional for the reasons above given.

WITHINGTON, for the Committee.

On motion of Senator Hall, Senate Bill No. 69 was re-referred to the Committee on Judiciary, to report back to the Senate on to-morrow.

Senate Bill No. 73—An Act to provide for a bond for the protection of laborers upon public work.

Bill read third time.

The following report of the Committee on Rules and Revision was received and read:

SENATE CHAMBER, SACRAMENTO, February 15, 1897.

MR. PRESIDENT: Your Committee on Rules and Revision have had under consideration Senate Bill No. 73, have examined the same, and report that the object cannot be secured under existing laws; that it contains no unconstitutional provisions, and the same is correct in text and reference, except as follows: The word "the" should be inserted in line 2 of Section 2, before the word "contract"; also, that all of Section 4 should be stricken out; also, strike out the words "Sec. 5," and insert in place thereof the words "Sec. 4."

They therefore recommend that Senator Henderson be appointed a special committee of one, to whom the bill shall be recommended, to amend the same as herein suggested.

WITHINGTON, for the Committee.

Your committee is of the opinion that that part of Section 1 commencing with the word "No," in line 8, up to and including the "and" in line 15 of said section, is unconstitutional, and should be stricken out.

They therefore recommend that Senator Stratton be appointed a special committee of one, to whom the bill shall be recommitted, to amend the same as herein suggested.

WITHINGTON, for the Committee.

Senator Stratton was appointed a special committee of one to amend bill as recommended.

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were taken up and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, February 16, 1897. }

To the honorable Senate of the State of California:

GENTLEMEN: I herewith return Senate Bill No. 9—An Act amending Section 764 of an Act entitled "An Act to provide for the organization, incorporation, and government of municipal corporations," approved March 13, 1883, relating to powers of the Boards of Trustees of certain cities—without my approval and with my objections thereto.

The amendment made by this bill to the existing laws governing municipalities of the class therein designated, adds to Section 3 the following words: "to purchase, lease, or construct waterworks and electric plants and all machinery, conductors, and appliances necessary therefor, and to supply such city with and to sell to the inhabitants thereof, water, light, heat, and power," etc., thus giving to the Board of Trustees of such city greatly increased powers.

I very seriously doubt the advisability of conferring upon Boards of Trustees the power, etc., "to purchase, lease, or construct waterworks and electric plants and all the machinery, conductors, and appliances necessary therefor," unless the proposition to so purchase, lease, or construct be submitted to the legal voters of such city at either a general or special election, and their approval of such proposition be given by such vote.

It will be recognized that, while this power is in some cases limited by the Constitution and by other sections of the law, still there are no limitations in the section itself; it is the latest expression of the legislative will upon the subject, and the other limitations might be often easily overcome by governing bodies.

The purpose of the Act—"to purchase, lease, or construct waterworks and electric plants, and all the machinery, conductors, and appliances necessary therefor"—is undoubtedly a most commendable one, but the extent of the cost should first be ascertained, and the question submitted to the people, as to whether they desire to so build, or purchase, or lease, and to assume the additional tax necessary for said purpose. A limitation on this section, by a proviso that the waterworks, electric plants, and all machinery, conductors, and appliances necessary therefor shall not exceed in price the sum of from \$10,000 to \$15,000, would undoubtedly relieve the bill of many of its objectionable features. If a further proviso were added that in all cases where the estimated cost and expense necessary for the purchase, lease, or construction of such plants, or the erection of such works, exceed said sums, the proposition should be submitted to the people for their votes, the Act would be further improved. Without such safeguards, it can easily be seen what temptations will be offered persons or corporations owning waterworks and electric plants to influence Trustees or Councilmen to purchase or lease said works or plants for the city at an extravagant cost, or upon conditions which the taxpayers who will have to pay for them would not sanction, and might vigorously oppose. To give the power conferred by this bill to Boards of Trustees or Councilmen without the express sanction of a vote of the people, who will have to meet the cost of the contemplated purchase or lease, is dangerous, and would prove unsatisfactory, and in many instances oppressive.

With the amendment suggested I can see no objection to the bill, and in such amended form would be pleased to see it become a law.

JAMES H. BUDD, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, February 16, 1897. }

To the honorable Senate of the State of California:

GENTLEMEN: I return herewith Senate Bill No. 138—An Act appropriating money to pay the expenses of collecting, preparing, forwarding, installing and maintaining, taking down and returning an exhibit of the products of the State of California at the Tennessee Centennial Exposition to be held in Nashville in 1897—without my approval and with my objections thereto.

I seriously doubt the advisability of expenditures of the character contemplated by this bill. Exhibitions of a similar nature to the Nashville Centennial Exposition are held with comparative frequency within the United States, and while their purpose is laudable, and their maintenance advantageous, a State appropriation to maintain an exhibition at each of them would result in a great aggregate expenditure, without a resulting general benefit.

I have but recently approved of an appropriation for the maintenance of an exhibition at Guatemala, but the cases are not parallel. Guatemala is a foreign country, new, and in process of rapid development. Her markets are in a receptive condition, ready to be appropriated by the most enterprising foreign countries. Our country is rich in the products which her people consume; her markets are convenient to our shores, and I believe it advisable that this State should expend a limited sum in the development of a market so convenient of access and so rich in its promise. The Nashville exposition, upon the contrary, is within the borders of a sister State, already familiar with our products and a purchaser of our commodities. That the consumption of the products of our soil and their sale may be promoted by this and similar exhibitions, I do not deny; but when we consider the frequency with which such exhibitions are held, that they are conducted by our own people, within the confines of our own country, and that to appropriate money to exhibit at one would establish a precedent for an appropriation for all, I feel constrained to withhold my consent to this bill.

We have heretofore appropriated \$300,000 for an exhibition of our various products and resources at Chicago, and \$10,000 for an exhibition at New Orleans. These exhibitions were international, and the conditions surrounding them were such as justified the expenditure. They resulted in advertising our resources within the limits of the United States to an extent which renders unnecessary the enactment of Senate Bill No. 138. The proposed exhibition at Nashville lacks the features which distinguished those at Chicago and New Orleans.

In view of the great expenses which appropriations similar to the one contemplated by this bill might ultimately entail, I am convinced that the general welfare will be best subserved by leaving to private enterprise the development of our domestic markets.

JAMES H. BUDD, Governor.

Referred to the Committee on Executive Communications and Nominations.

To the honorable the members of the California Legislature:

GENTLEMEN: We, the undersigned, employés of the various street railroads in operation within the limits of the City and County of San Francisco, respectfully represent as follows:

That fully five thousand men are at present in the employ of the various street railroads within this city and county.

That the wages paid to employés by the controlling corporations are barely sufficient to supply the necessities of life, under present conditions, especially to those who have families dependent upon them.

That the measure now under consideration by your honorable body, whereby it is proposed to reduce the rates of fares on street cars, is detrimental to the interest and welfare of every street railroad employé, inasmuch as the passage of such a measure would entail a corresponding reduction in the scale of wages paid to employés by the various companies; and,

Finally, believing that such would be the result, we therefore humbly petition your honorable body to reject this, and any such measure that may be presented for your consideration.

(Signed:)

W. C. Carpenter, Frank Bell, G. A. Grimes, and 2,500 others.

MR. PRESIDENT: Your Committee on Rules and Revision, to whom was referred Senate Bill No. 95, with instructions to report the substance thereof as an amendment to the Codes, do report as follows: Your committee has considered the matter, and report the same back without performance of the direction of the Senate, for the following reasons: The incorporation of the rule of succession in the bill would necessitate the change of so many provisions of the Civil Code and the Code of Civil Procedure that with the limited time at our disposal it is impossible for us to make the necessary changes to harmonize the existing law with the changes proposed in the bill. The work of presenting the amendments that this bill would necessitate in the Codes is entirely too vast for a Senate committee.

STATEMENT.

The following statement was presented and ordered printed in the Journal:

MR. PRESIDENT: My attention is called by the decorations around the desk of the President of the Senate to the fact that during my absence Assembly Bill No. 120—"An Act to provide additional support and maintenance, etc., for the University of California"—has been passed by the Senate. As I have, in the Finance Committee, in the Senate, and elsewhere, strongly advocated this bill, and opposed all amendments to it, I should like very much to have my vote recorded in favor of its passage. But as you have ruled that under the rules this cannot be done, I ask permission to have this statement entered on the Journal of the Senate so that I may go on record as in favor of liberal State contributions to this magnificent institution of learning, of which we, as Californians, are so proud.

E. I. WOLFE.
